- shaft for increased strength
- and swing durability
- Induction hardened
- forged head
- Thick handle with rubber overlay
- below the striking head provides
- overstrike protection
- Textured rubber grip for comfortable and secure two-handed operation

DESCRIPTION

This sledge hammer from Estwing has a double-injected shaft reinforced with over 70% fibreglass, ensuring maximum strength and swing. It is ultra-robust, designed for durability, reliability and safety. The drop forged head is induction hardened. The thick handle has a rubber overlay below the striking head to provide overstrike protection. Additionally, the textured rubber grip helps reduce impact vibration and provides a comfortable and secure two-handed operation.

ESTWING sledge hammers and striking tools are manufactured generally in accordance with BS 876
