STOCK No. 16155 **BRAND** Draper Expert

BARCODE 5010559161553

WARRANTY 12 months parts and labour

FEATURES

- Designed to be tapped with a hammer, forcing either paraffin or a light viscosity oil through the tool into the grease nipple, enabling the penetration of the clogged grease fitting and loosen hardened grease joints
- Made from heavy-duty steel with a built-in hand guard
- Can be used with the flexible connection attached or straight onto a grease nipple
- Supplied with two spare plunger seals

DESCRIPTION

Designed to be tapped with a hammer, which forces either paraffin or a light viscosity oil through the tool into the grease nipple, enabling the penetration of the clogged grease fitting. Manufactured from heavy duty steel with a built - in hand guard and a flexible hose attachment for reaching fittings in difficult areas. Can be used with the flexible connection attached or straight onto a grease nipple. Supplied with two spare plunger seals.
