FEATURES

- Manufactured from high-quality virgin HDPE plastic
- Supplied with a tethered flexible spout for controlled flow
- Nominal capacity 5L
- Ideal for use with diesel fuel. Also available in black for colour-coded use with diesel fuel (Stock No. 09053)

DESCRIPTION

This five litre UN-certified fuel can is manufactured from high-quality virgin HDPE plastic. It's suitable for storing in a vehicle or in the garage, and its green colour makes it ideal for use with unleaded fuel. Supplied with a tethered flexible spout for controlled flow. Also available in black for colour-coded use with diesel fuel (Stock No. 09053).
