FEATURES

- Designed for light to medium-duty work and delivers rapid stock removal on ferrous metals
- Hardened steel wire
- Strong construction with crimping action
- Bevelled shape for accessing hard-to-reach areas
- Suitable for cleaning, deburring and surface preparation
- Compatible with most angle grinders with an M14x2 connection

DESCRIPTION

This bevelled wire wheel brush is designed for light to medium-duty work and delivers rapid stock removal on ferrous metals. The brush is made from hardened steel wire, which gives a high level of durability and performance. The crimping is flexible to tackle recessed areas and irregular surfaces. The bevelled shape gives the ability to access difficult to reach areas, in cracks or on edges at high speeds. Suitable for cleaning, deburring and surface preparation. Compatible with most angle grinders with an M14x2 connection.

Conforms to EN1083-1 and EN1083-2
