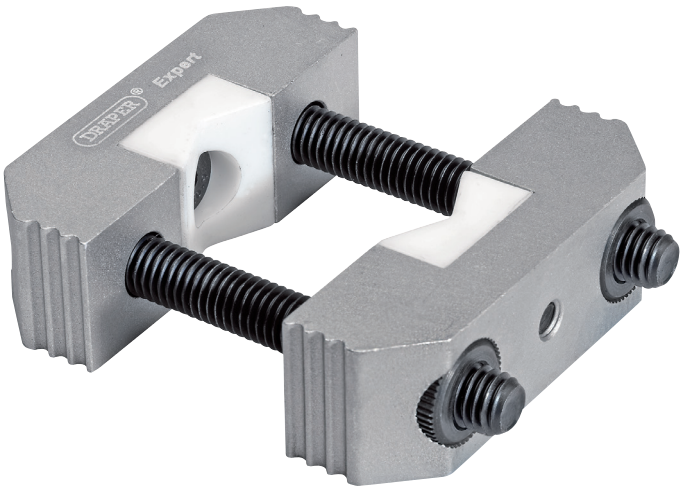
BARCODE 5010559500659

WARRANTY Lifetime



FEATURES

- Clamp for strut insert pistons
- Used to easily lock macpherson struts into a fully extended position
- Enables road springs to be removed and replaced
- Especially useful when working on struts equipped with strong internal springs (tension stop springs) which have a tendency to pull the strut shaft into the strut
- Manufactured from anodised aluminium

DESCRIPTION

Used to easily lock Macpherson struts into a fully extended position so the road spring can be removed and replaced. Especially useful when working on struts equipped with strong internal springs (tension stop springs) which have a tendency to pull the strut shaft into the strut. Manufactured from anodised aluminium.
