230V Stainless Steel Booster Pump, 50L/min, 800W

STOCK No. 27483 **BRAND** Draper

BARCODE 5059482108181

WARRANTY 12 months parts and labour

FEATURES

- Boosts and maintains water pressure
- Durable stainless steel pump and tank
- Pressure control switch and gauge
- Quiet and efficient performance

DESCRIPTION

This pump is engineered to boost or maintain the pressure and flow rate of clear water within a home environment where the mains pressure is low. Ideal for increasing water pressure and flow to taps and shower heads. Not suitable for direct connection to the water mains or main inlet to the property. It features a durable stainless steel pump and tank, a pressure control switch and a pressure gauge. The pump provides quiet and efficient performance.

CONTENTS

1 x 230V Stainless Steel Booster Pump, 50L/min, 800W
