State Aid of renewable Energy production (Hydropower) approved by the EU:

http://europa.eu/rapid/search-result.htm?text=State+aid+for+Renewable+Energy+production&titleOnly=0&textMatch=all&page=1&format=HTML&size=10&locale=EN

Date of approval	EU-member country	Small hydropower project for example <500 kW		Hydropower project fot example>500 kW	
		Mini Hydro	State Aid	Small Hydro	State Aid
23.8.2016	Czech Republic	<500 kW	Feed in tariff	0,5-10 MW	Tender-Premium
12.12.2016 and20.9.2017	France	<500 kW	Feed in tariff	0,5-1 MW	Tender-Premium
11.7.2017 and 29.9.2017	Hungary General application	<500 kW and DEMO-projects	Feed in tariff	>0,5 MW	Tender-Premium
26.8.2016	Luxembourg			General	Premium payment
29.4.2016	Italy all renewables	<500	at application	0,5-5 MW	listening and priorisation of project technologies
				>5 MW	compete in tenders specific for each technology
2014	Germany	<500 kW new	Feed-in 12,52 c/kwh	<2 MW new	Feed-in 8,25 c/kwh
		<500 kW re-powering	Feed-in 11,52 c/kwh	<2 MW re-powered	Feed-in 8,25 c/kwh
				<5 MW new	Feed-in 7,25 c/kwh
				<5 MW re-powered	Feed-in 8,25 c/kwh
				>5 MW table up to 50 MW new plants	Feed-in 6- - 3,5 c/kwh
2016	Germany	http://www.germanenergyblog.de/?p=19941 http://www.germanenergyblog.de/?p=19666			
2017	Germany	http://www.germanenergyblog.de/?p=19139 Support to hydropower projects shall continue to be granted pursuant to the EEG 2014.			
23.7.2014	UK	http://europa.eu/rapid/press-release_IP-14-866_en.htm The UK Contracts for Difference encourage all renewable energy technologies producing electricity. Small hydro is included in the section "**Established' technologies"!**			
8.2.2012	Austria	http://europa.eu/rapid/press-release_IP-12-111_en.htm This support is granted with operating aid in the form of subsidised feed-in tariffs and investment grants. Hydropower is included in the support scheme.
