### > SYMPOSIUM FOR CONTEMPORARY ANIMATION STUDIES AT THE WORLD FESTIVAL OF ANIMATED FILM ANIMAFEST ZAGREB (09 – 14 JUNE 2015)

- > SYMPOSIUM DATE: 10 – 11 JUNE 2015
  - > CALL FOR PAPERS
- 

Scanning historical and current trends through different perspectives including art history, film, media and cultural studies is a prominent facet of today's theoretical and historical approach towards the rapidly evolving field of animation. There is no better place to get a concentrated overview of the varieties of animated film than one of the most respected animation film festivals in the world, a meeting point of many leading artists and professionals. The second edition of the Symposium for Contemporary Animation Animafest Scanner again aims to create synergy of theoretical and practical discourses, and stimulate exchange between filmmakers and scholars.

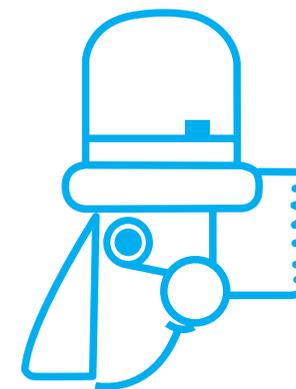

## FESTIVAL AND SYMPOSIUM OVERVIEW

The symposium will be held in association with the World Festival of Animated Film Animafest Zagreb. Over the course of its forty-three-year history, the festival has given a stage

to different animation forms and formats in competition and non-competition environments, presenting a worldwide selection of auteur, experimental and mainstream animated films in various programmes.

In 2002 the Animafest Zagreb Award for Outstanding Contribution to Animation Studies was introduced, the only honour of its kind in the world of animation festivals. This international award is currently presented every two years. Past recipients include: Giannalberto Bendazzi, Donald Crafton, John Canemaker, Clare Kitson, Midhat Ajanović Ajan, Olivier Cotte and Marcel Jean. Built on the award and many individual theoretical lectures, the theoretical section was extended in 2014 by organizing an academic symposium as part of the festival.

For the second time, international film and media scholars are invited to present the newest findings in the field of animation studies. During the two-day event, ideas and thoughts will be exchanged with festival guests, filmmakers, organizers of other festivals, producers, professionals, and

scholars. Animafest Scanner Symposium for Contemporary Animation Studies will be fully integrated into Animafest Zagreb and complemented by additional animation screenings, artists' talks and exhibitions.

This year's keynote speaker will be Giannalberto Bendazzi, a well-known film theorist, critic and professor, and the first winner of the Award for Outstanding Contribution to Animation Studies in 2002.

We invite you to submit your papers to join other prestigious presenters. To be considered to present, please read carefully the requirements for presentation and submission listed below.
