Specification*	<ul style="list-style-type: none"> • Moisture ~9% • Crude Protein ~17% • Crude fat ~2.2% • Crude Fibre ~28.5% <p style="text-align: right;">(*Values are not contractual)</p>
General Use	Lucerne is applied in compound feedstuff for all animal classes as a source for energy and protein. These products can also be fed directly to animals.
Packaging & Transport	Bulk
Labelling	According to EU legislation 767/2009
Storage	Dry, cool and dark storage. Good shelf life; max 1 year, if stored correctly.
Legal Demands	The products comply with legal requirements & legislation. The most significant elements of which are: <ul style="list-style-type: none"> • Regulation 183/2005 on Feed hygiene. • Regulation 767/2009 on placing on the market and the use of feed. • FEMAS & GMP+ Feed safety Assurance Scheme.
Undesirable substances	The maximum determined contents for undesirable substances in feedstuff, such as established in: <ul style="list-style-type: none"> • Directive 2002/32/EG on undesirable substances in animal feed; • GMP+FSA; Appendix 1 (Product standards, including residue standards) • Regulation 396/2005 on maximum residue levels of pesticides in or on food or feed.
Specific analysis and standard tolerances	
Salmonella	Absent in 25g
Appearance	Green pelletised product
Country of origin	EU origin
Health Information	

R7-04A

Product data Sheet Animal Feeds

Inhalation	May cause lung congestion if inhaled. Prolonged contact with large amounts of dust may cause mechanical irritation.
Ingestion	Can cause upper GI tract disturbance.
Eye Contact	Contact can cause irritation.
Skin Contact	Dust can cause irritation or sensitivity to skin.
Toxicological Information	Not available.
Occupational exposure limits	None available
Emergency first aid procedures	
Ingestion	Do not induce vomiting. Give person water to drink. If gastro-intestinal symptoms develop seek medical help.
Eye Contact	In the event of eye contact irrigate with water for at least 15 minutes. Exposure may result in mild irritation. Seek medical attention if irritation Occurs.
Skin Contact	Wash effected area with soap and water. Seek medical attention if irritation develops.
Inhalation	Remove person to fresh air. Seek medical attention if symptoms develop.
Physical properties	
Physical state	Solid
Appearance	Dark green colour
Odour	Alfalfa Smell.
Flammability limits	Smolders when directly heated in flame.
Fire & Explosion hazard	
Flash point	>470°C
Flammability	Does not catch fire
Extinguishing media	Foam, dry chemical, carbon dioxide – flames should be smothered
Special firefighting procedures & precautions	
When heated to decomposition, emits toxic fumes and toxic gases. Self-contained breathing apparatus and full protective clothing must be worn.	
Reactivity	
Stability	Stable
Hazardous Polymerization	Will not occur
Material to avoid	Avoid contact with strong oxidants, aluminium, diazomethane & phosphorus
Hazardous decomposition products	Irritating and/or toxic fumes and gases may be emitted upon the product's decomposition.
Personal protection / Exposure control	
Respiratory Protection	Always ensure the work area has adequate ventilation. In case of dust formation, wear appropriate respiratory protective equipment determined and fitted by an expert.
Skin protection	Gloves and overalls should be worn when handling.
Eye Protection	Always wear approved safety glasses when working. Full face protective shields can be worn to avoid contact with face. Wash stations should be provided.
Footwear	Appropriate footwear as specified by workplace requirements.
Environmental Protection	
Environmental precautions	This product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Avoid excessive dust emissions
Spill or leak precautions	No special precautions. Normal sweeping of small spillages and collection is appropriate. For larger spillages mechanical scooping may be necessary (use only diesel vehicles).
Waste disposal	Dispose of in accordance with local regulations. Uncontaminated product may be used as fertiliser..
