

BSNI has lots of simple resources to encourage regular reading of Scripture

- ✓ Suitable for individual use
- ✓ Suitable for use in group discussion
- *The E100 Reading Challenge is being launched this Autumn to facilitate both Bible reading and Ministry Preaching Plans.*
- *A Daily Bible Reading Guide for 2011 will soon be available, offering a suggested passage for each day.*
- *Where to Look in the Bible is a list of 93 popular Bible passages covering Jesus' parables and miracles and many more readings in both Old/New Testaments.*
- *Where to Look in the Gospels offers passages that may help young people.*
- *For those with special stamina, Through the Bible in a Year offers a Reading plan that will cover all of the Bible books in 365 days.*
- *For group use, there is a wide range of audio recordings with either the New Testament or the complete Bible available on CD. This could be used to promote listening followed by group discussion, or made available on loan for people to listen to at home or as they drive.*
- *Listening to the Bible text can be combined with a visual dramatisation with the words of Matthew, John and Acts accurately reproduced by actors to provide insight into the Bible story. Again, these DVDs are a great resource for a group to watch and discuss over coffee.*

All of these are available at modest cost.
Contact BSNI at 9032 6577 for details.

Promoting Bible Reading Habits
