Many call it “the most powerful CAD/CAM solution in the world”. Others prefer to speak of its efficient workflows, many tools, ease of use, and widest range of indications. No matter how you describe it, 3Shape’s Dental System™ continues to maintain its long-standing leadership as the world’s most innovative and sold lab system for dental CAD/CAM.

The complete CAD/CAM dental lab solution package containing the widest range of indications, advanced design tools, and service options.

- Full range of indications
- Complete range of advanced tools & attachments
- Also Real View™ Engine with 2D image overlay
- Includes Communicate™, TRIOS Inbox™ and more
3SHAPE SOLUTIONS FOR ANY LAB

Whether you are seeking a secure entry into digital dentistry, or expanding your business with more indications, Core3dcentres® has a scanner and software combination for you.

Flexible, modular, upgradable software packages:
Dental System™ covers every business need through three software packages, upgrade options, and Add-on expansions.

Extend your range of indications with Add-ons:
3Shape offers Add-ons covering advanced indications and workflows such as Model Builder™, Denture Design™, and Abutment Designer™.

LABcare™ with every Dental System™ subscription:
LABcare™ provides training, upgrades and support to ensure you get the most out of your lab solution.

Pay-per-design with CAD points:
Enjoy a wider range of indications with a minimal up-front investment. Applies to most 3Shape Add-on modules.
