

Respirator Face Fit Tester Training - Qualitative

Number of Delegates:	1 – 10
Course Duration:	½ Day
Course Outcome:	Certificate

Introduction

This course is designed for any operative, manager or supervisor whose responsibilities include conducting face fit testing of people wearing half mask types, including filtering face piece (FFP) respirators.

Aims & Objectives

This course aims to train delegates in the proper use of the 'qualitative' fit test equipment, as well as the methods of operation that will enable them to safely and correctly perform a fit test.

Course Delivery

This course is delivered through classroom-based tutorials and combines both theoretical and practical components, including using a selection of face mask types and Qualitative fit test equipment.

Location

This course can be delivered on your premises or at a location suitable to you.

Certification

CSP accredited certificate.

Delegate Eligibility/Entry Requirements

It is important that all delegates have a good understanding of spoken and written English.

Additional Information

This course does not include the assessment required to obtain Fit2Fit accredited status. Delegates can undertake the Fit2Fit Test assessment upon successful completion of this course if they require Fit2Fit accreditation.

A Skills People Group Company
