FINAL DIFASS MONTHS

After almost three years of cooperation, we have reached the conclusive stages of the DIFASS project. Time to draw final conclusions and present our outcomes. During this conference and in the weeks to come all final results of the project will be shared with stakeholders involved in supporting SME access to finance.

REGIONAL IMPLEMENTATION

Now all ideas from the various regions have been presented, over the past months the project partners worked on their Regional Implementation Plans. These plans include the approach how lessons learned from the DIFASS Good Practices will be integrated in practice in the region.

8 BROCHURES OF GOOD PRACTICES

DIFASS has resulted in 43 good practices. They have been captured per topic in 8 brochures with descriptions of the features of every good practice. These brochures are available on the website of DIFASS and also in printed form at the final conference. Every Good Practice has a video link as well.

SUPPORT

The DIFASS project is supported by the INTERREG IVC Programme. It is implemented under the European Community's territorial co-operation objective and financed through the European Regional Development Fund (ERDF).
