Overview
Following a summer and autumn of key Government announcements, the final East Midlands Executive Forum of 2017 will provide the opportunity to reflect on what this means for organisations in the East Midlands, and to think about challenges to come.

David Orr, Chief Executive, will be providing an update on the latest insight and intelligence we have from the Government, as well as reflecting on the key announcements we have seen around LHA, rents and initial investment. James Green, Futures Programme Director, will also be joining us to provide an update on the next phase of the Federation’s Futures Programme.

This forum will provide an opportunity to hear about, and shape, our emerging thinking around the lives and experiences of those who live in social housing. We know that our members have an ambition to be the best landlords possible, creating and maintaining great places to live. We want to work with members, and those they house, to understand how we can have a strong and compelling offer to tenants across the sector – and a clear set of asks of Government and others about how they can improve that experience. This will be a major piece of work for the Federation and the sector over the next year. Catherine Ryder, Head of Policy, will lead the discussion that will help us shape it.

Programme
