

What's my risk level?

We are working with the British Society of Gastroenterology (BSG), who have put together specific guidance for people with Crohn's and Colitis. Please follow the below advice unless you are told otherwise by your IBD Team. You can find more information at crohnsandcolitis.org.uk/covid19-risk

* This information on risk is only about Crohn's and Colitis. If you are over 70 years old or have other health conditions, you could be in a higher risk group - speak to your GP or healthcare team if you're worried.
