

What's my child's risk level?

We are working with the British Society of Paediatric Gastroenterology, Hepatology and Nutrition (BSPGHAN), who have put together specific guidance for children with Crohn's and Colitis. Please follow this advice unless you are told otherwise by your child's IBD Team. You can find more information at crohnsandcolitis.org.uk/COVID-19

* This information on risk is only about Crohn's and Colitis. If your child has another health condition their risk may be higher. Speak to the healthcare professionals treating your child if you're unsure.
