

A Guide to JustGiving Team Pages

JustGiving Team Pages allow you and your friends, family or colleagues to join your individual fundraising pages together to contribute to an overall total. This means you can keep track of how much you raise, while also fundraising as a team!

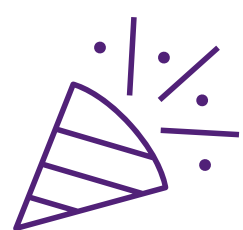

Step One: Create your own individual fundraising page and select Crohn's & Colitis UK as your charity.

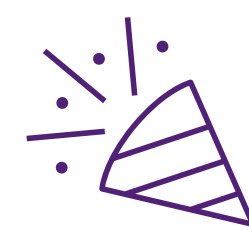

Step Two: Once the page is created head to 'view your page' and click the link called 'create a team'.

Step Three: Personalise your team – create a team name, select Crohn's & Colitis UK as your charity, add the event you are all taking part in, tell your team's story, add a photo and finally add a target!

Step Four: Invite your team members to join the team by sharing your unique 'invite team members' link, they will then be able to either create a new page or link an existing one.

TIP: You can add multiple events and fundraise for multiple charities too!

Congratulations – You now have a JustGiving Team Page!
