Very well →→→→→→→→→→→→→→→→ not very well

24%	46%	12%	0%	18%	**Positive 70%**

Additional comments from attendees:

- "It was a new departure to have involvement from relatives, which I appreciated and to see the team work between all grades of staff and patients."
- "Excellent speakers. An evening much different than I expected".
- "The first speaker was quite difficult to hear but the others were all very good and Sue, the donor and the lady recipient were really inspiring having had first-hand experience, and perhaps their stories could be more widely used to try and get more people onto the donor register."
- "I thought it was a great event!"
- "Firstly, the welcome received on arriving is outstanding, thank you to all, especially Liz. I found that all issues were covered fully and professionally, it was very informative which made you aware of many issues along with the necessity of donating organs. Question time was generous and covered expertly. This was a very informative evening.'"
- "The evening was very well balanced with a fantastic panel of people from the different aspects of Organ donation, the sound could have been better also the slides, but guess this was due to the venue change last minute. The professional speakers were very good and gave me a potential Kidney patient, hope and encouragement, the recipients were inspiring and gracious. many thanks for this opportunity and the continuous good work that the Royal Free do for its patients and members."
- "This meeting with patient speakers gave the added dimension of personal and emotive experience - one of the best I've attended!"
