

# THE ROYAL FREE LONDON CELEBRATES INTERNATIONAL CLINICAL TRIALS DAY

Come and join us at the Royal Free Hospital

**On Wednesday 20 May 2015**

And meet some of our world leading researchers to hear about the vital work that you could be part of.

The Royal Free London has a long-established and outstanding research reputation with at any one time more than 300 research projects taking place across a wide range of diseases. Today's research is tomorrow's medicine and the recent past has seen major breakthroughs, but without the invaluable help of people living with some of these conditions none of this is possible.

We encourage all our patients to ask their doctors and nurses about studies they could take part in.

**We have a full programme of activities**, please email [rf.randd@nhs.net](mailto:rf.randd@nhs.net) or call 020 7472 6394 to RESERVE YOUR SEAT or for more information.

**Venue:** The Sir William Wells Atrium,  
Royal Free Hospital, Pond Street, London NW3 2QG

**We look forward to seeing you!**
