The NOCA Governance Board, is an independent voluntary board, convened to oversee and guide the strategic direction of NOCA.

Individual NOCA audits are governed by a Governance Committee which makes strategic decisions relation to the audit, and oversees operational plans. The IHFD Governance Committee includes relevant clinical and management stakeholders and two patient public interest representatives.

The IHFD Governance Committee is supported by Ad-Hoc Working Groups and an operational team. An annual IHFD writing group is established to write the report.

The operational clinical audit team (Audit Manager working with the NOCA Clinical Lead, and supported by the NOCA executive team) is responsible for the development, implementation and reporting from the audit.
