

NORTHERN LIGHTS

ALLEGRO

TABLE LAMP

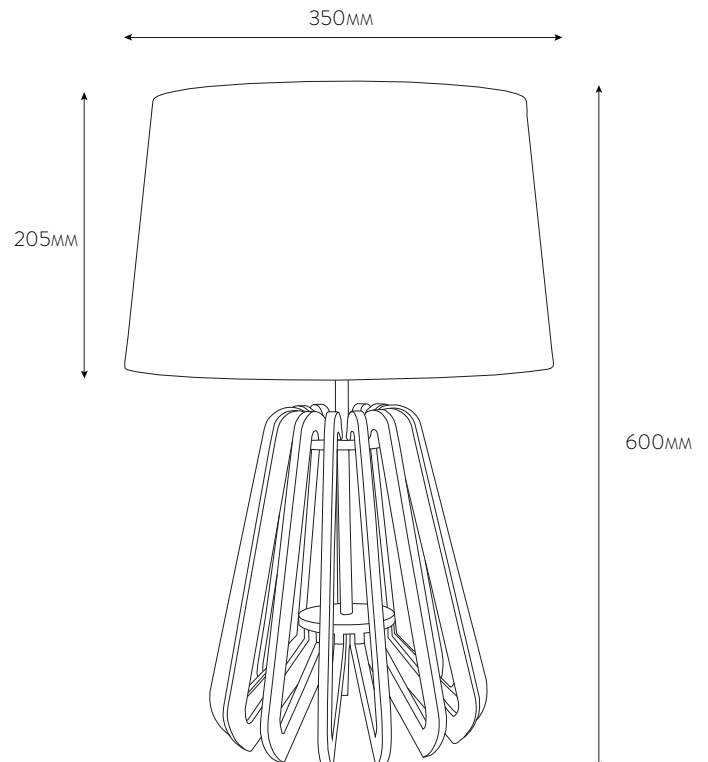

PRODUCT CODE: ALLEGRO TABLE LAMP NE548

From our Juno range, this table lamp differs markedly from our standard Juno table lamps. The timber fins on this lamp make up the elegant base to the piece and a chrome stem then takes you up to the tapered gunmetal coloured fabric shade.

All of the products in our Juno range are constructed using real wood veneers which can be stained to a variety of colours to suit your scheme, as can the shade.

Please contact us for further details..
