

# NORTHERN LIGHTS

## ATTICUS

### PENDANT

PRODUCT CODE: ATTICUS PENDANT NB752

From the Juno range, this pendant is constructed from angular and curved timber fins arranged around a central cone structure. Light from the decorative filament lamp (optional) shines through the timber fins, generating interesting pools of light.

All of the products in our Juno range are constructed using real wood veneers which can be stained to a variety of colours to suit your scheme.

Please contact us for further details.
