

NORTHERN LIGHTS

BATAILLE

TABLE LAMP

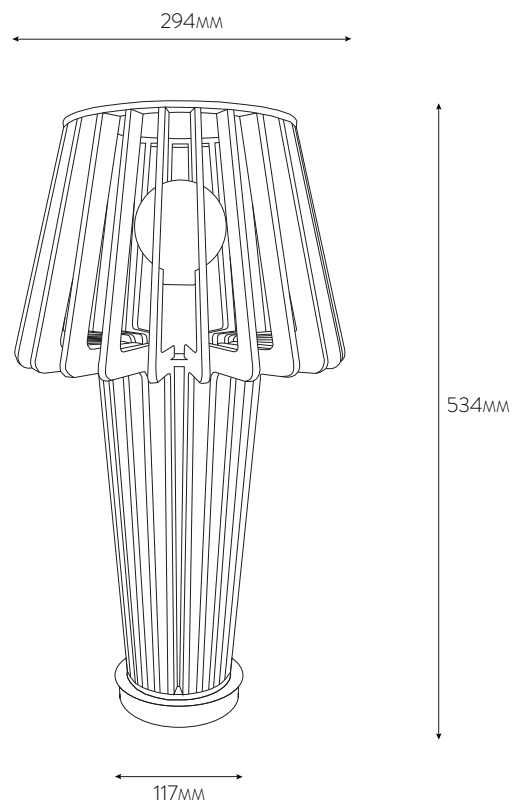

PRODUCT CODE: BATAILLE TABLE LAMP NE569

From our Juno range, this table lamp has quite an individual style. Each timber fin in this lamp is made in one piece and has been precision cut to keep the lamps crisp silhouette lines. The light shines through the fins and creates interesting light pools around the lamp.

All of the products in our Juno range are constructed using real wood veneers which can be stained to a variety of colours to suit your scheme.

Please contact us for further details.
