

# NORTHERN LIGHTS

## WYNWOOD

### TABLE LAMP

PRODUCT CODE: WYNWOOD TABLE NE570

From our Juno range, this table lamp is sure to become a focal point with its unusual design. The timber fins give the lamp almost a 'T' style silhouette while still giving the lamp a circular plan view. The removable inner shade diffuses the light through the fins and creates interesting pools of light around the lamp.

All of the products in our Juno range are constructed using real wood veneers which can be stained to a variety of colours to suit your scheme.

Please contact us for further details.
