

Passed 05/05/2015

What is the issue you would like the Union to tackle?

I feel that it will be more beneficial for students to receive their exam timetables before the new academic year as from speaking to current students, it has occurred that they will be able to plan and prepare for their exams at an early stage. Hopefully the result of this will then be students feeling more confident in passing their exams

What action would you like the Union to take?

Students should receive their exam timetables at the beginning of the academic year.
