

About the Project Space

The Project Space is gallery dedicated to NYUAD and community projects. Located on the ground floor of the Arts Center, the Project Space is supported by museum-trained staff of the Art Gallery. While the Art Gallery's curated exhibitions rotate three times a year, the Project Space allows for a more flexible, experimental program. While the Project Space gives priority to exhibitions of the NYUAD academic community, such as the annual student Capstone Festival, the semester-end exhibitions of student works, and faculty-curated exhibitions it also welcomes emerging artists and scholars from the greater UAE community to exhibit.

NYUAD invites members of the NYUAD community and the greater regional community to apply, using this form, to present an exhibition in the Project Space. The Project Space committee will review all applications and make selections based on what is deemed relevant to the mission and intellectual scope of NYUAD, including art, science, and engineering projects. Exhibitions will typically run for 2 weeks depending on the schedule.

To propose an exhibition in the Project Space, please review and complete the application and return it to exhibition-projects@nyu.edu

Let us know if you have questions.
