

# SUMMER

## Beech Class Newsletter

### Welcome Back

Welcome back to school for our summer term. We have an exciting term ahead with literacy topics including the stories of Ted Hughes, tales from the city and how to write persuasive texts.

In maths we will focus on honing our calculation skills, understanding angles, using measures and more working with fractions.

### Homework

Homework will continue to be set on a Thursday to be returned by the following Wednesday. If anyone has any difficulties then please don't hesitate to speak to me.

### PE

We will be covering cricket, racket sports and athletics in the summer term. As we will be outside as often as possible can you ensure your child will be warm enough. Also, can you make sure your child has their full PE kit in school on Wednesdays and Thursday.

### Topic

After journeying down the Amazon last term we have now embraced the world of 'Mighty Metals'. We will focus in this topic on forces and in particular magnets. After half-term we look at the development of towns and cities in a topic entitled 'Urban Pioneer'.

### Reminders

If your child wishes to bring in awards, certificates, or topic related items to show the class, then we have set aside some time on Friday for this to take place. With the improving weather it is also useful for your child to have a hat in school for when we are outside.
