

# Free of Charge Metering

From the 25<sup>th</sup> April 2016, CNG Energy Connections are able to offer FREE OF CHARGE Metering on all low pressure diaphragm meters.

## How will this work?

This will be entirely managed end-to-end by the Energy Connections team and any queries regarding this should be directed to [energyconnections@cngltd.co.uk](mailto:energyconnections@cngltd.co.uk), or your dedicated Account Manager. Please see below for the flow of the process and any information required.

Meter installation request sent via email to [energyconnections@cngltd.co.uk](mailto:energyconnections@cngltd.co.uk). This request should include:

- Full site address, MPRN, customer name, company name and customer contact details
  - MPRN and meter size required, or the kwh load required
  - Commission uplift required on contract along with AQ

CNG Energy Connections receive the request and validate it for any missing information. Assuming all information is present and correct we will issue a quotation including the gas contract.

Please note the below terms of contracts:

- CNG will not accept any matrix pricing on Free of Charge Meter Installations
- The contract terms offered for Free of Charge Metering will be 24 and 36 Months only
- The customer will still receive a quote for the meter installation however it will be at a NIL value. This is because of the terms and conditions listed on the quotation

Broker/Customer signs the contract and returns to the Energy Connections team, who then validate the contract, process, and plan the meter installation.

Meter is installed.

## Which meters are included and how long will it take from acceptance to installation?

Below is a table of meter sizes included in the Free of Charge Metering offer, along with our SLA for installation. Please note these assume the site is shipperless.

Meter Size	Expected lead time for installation
U6 Low Pressure	6 working days from acceptance
UI6 Low Pressure	6 working days from acceptance
U25 Low Pressure	6 working days from acceptance
U40 Low Pressure	10 working days from acceptance
U65 Low Pressure	10 working days from acceptance
UI00 Low Pressure	15 working days from acceptance
UI60 Low Pressure	20 working days from acceptance
