

Energy Connections

We understand that when you're in business, you're in demand. So we aim to get on with the job and leave you free to focus on the things you do best.

A service that works around you

Wherever possible, we go out of our way to minimise disruption and work around your schedule, maximum kilowatt load requirement, site plans and location plans.

We'll also work closely with your architects, designers, developers and contractors to deliver a seamless service.

A full range of services

From meter installation to a complete new gas service, we offer the full range of services, including:

- New gas connections, including new gas mains
- Meter installation, removal, replacement or relocation
- Increasing or decreasing your system's gas pressure according to specific business requirements
- Network design, planning and installation
- A full range of service upgrades
- Automated Meter Reading (AMR)
- Full cradle-to-grave project management, including site visits
- Customised gas solutions
- Fully-certified professionals being compliant with relevant industry guidelines and regulations, on all work carried out

Whatever your sector or industry, to discuss your gas supply connection and meter requirements simply call us on 01423 502 554 to talk direct with a member of our experienced Energy Connections team or email energyconnections@cngltd.co.uk
