

(HW) CONTENTS

COVER FEATURE **22**

SCRATCH: THE FIRST TEN YEARS
Hello World takes a look back at ten years of the educational programming language and asks 'What next?'

16

DIGITAL MAKING
Everything you need to know about mixing technical and creative skills

09

CODE CLUB GROWS UP
A new age range for Code Club!

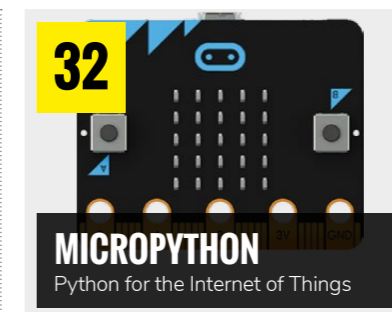

YOUNG CODERS **94**
From high school student to digital entrepreneur with Apps for Good

14

HANDS-ON ROBOTICS
Robots in the classroom

32

MICROPYTHON
Python for the Internet of Things

NEWS AND FEATURES

- 06 NEWS**
Computing education news
- 14 ROBOTS IN THE CLASSROOM**
Teaching and learning with robots
- 16 #INSIGHTS**
Digital making in education
- 19 COMPUTING AND GENDER**
Making computer science relevant for everyone
- 21 PHYSICAL COMPUTING**
Bee-Bots and robot arms
- 22 HAPPY BIRTHDAY TO SCRATCH!**
In conversation with Mitchel Resnick from the MIT Media Lab
- 30 DIGITAL SAFEGUARDING**
Keeping children safe in the digital world
- 32 MICROPYTHON**
A language designed for the Internet of Things
- 34 BREAKING THE CAESAR CIPHER**
Simple cryptographical analysis
- 58 SNAP!**
Block-based functional programming
- 60 PATTERN RECOGNITION**
Using Haskell and Cuisenaire rods to teach algebra before arithmetic
- 62 COMMON MISTAKES**
Understanding novice coders
- 64 BLOCKS TO TEXT**
An innovative way to transition from block-based to text-based languages
- 68 DIGITAL LEADERS**
Empowering students to lead
- 69 STUDYING WITH HARVARD**
Online computer science CPD
- 70 CREATIVE BINARY**
Teaching binary with music and pictures
- 71 SCRATCHMATHS**
Cross-curricular teaching with Scratch
- 78 BROWSER-BASED IDE REVIEW**
Integrated development environments for education
- 82 BOOK REVIEWS**
Computer science books for teachers and children
- 86 INFORMATION STRUCTURES**
Arrays, stacks, records and trees
- 98 COURSEWORK OR CLASSWORK**
Alternative approaches to practical assessment in CS

OUTSIDE THE CLASSROOM

- 17 BUILDING CONFIDENCE**
Self-efficacy and the Hour of Code
- 20 HACKATHON INSIDER**
How to run your hackathon
- 35 CHAOS AND CODING**
Balancing Code Club activities
- 36 CODE CLUB EVALUATION**
An independent look at Code Club
- 38 GIRLS WHO CODE**
Promoting inclusion in CS
- 71 SCRATCH AT HOME**
Learning through play
- 72 AFTER-SCHOOL CODING**
Running a programming club
- 74 CLUBBING TOGETHER**
Code Club progress report
- 76 CODING IN MINECRAFT**
Exploring Code Kingdoms
- 84 HACK JAMS**
Learning together
- 88 EVENT GUIDEBOOK**
Running a community event
- 94 YOUNG CODERS**
Digital entrepreneurs

LEARNING

TUTORIALS & LESSON PLANS

- 42 PYTHON GRAPHICAL INTERFACE**
Add a GUI to your Python program using guizero - and kittens!
- 44 LOGIC GATES EXPLAINED**
NAND gates, truth tables, and simulating logic gates in Python
- 46 MINECRAFT LOGIC**
Exploring logic gates with programmable Minecraft blocks
- 48 UNPLUGGED AI**
Devise a written set of rules for a noughts and crosses-playing computer
- 50 ONCE UPON A TIME**
Use variables in Scratch to tell a story that changes for every user
- 52 DRAWN TO PYTHON**
Create simple on-screen shapes by coding with PyGame
