

## Introducing the Sky Q Mini

Set your TV free.

The Sky Q Mini allows you to watch your shows and recordings from the main Sky Q box throughout the home.

This means you can enjoy the same Sky Q experience in another room without the need for more satellite cables.

When combined with Sky Broadband, it also boosts your Wi-Fi signal, because the box acts as an extra hotspot.

### Design features

Discreet form that carries the sleek design of the Sky Q boxes

Dimensions: 232mm x 155mm x 35mm

Weight: 0.5kg

Colour: Matt black and hi-gloss black
