COVID-19.	<p>ensure all staff are aware of it.</p> <p>If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow <a href="#">‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’</a>, which sets out that they must self-isolate for at least 10 days and should <a href="#">arrange to have a test</a> to see if they have coronavirus (COVID-19).</p> <p><b>If they have tested positive whilst not experiencing symptoms but develop symptoms during the isolation period, they should restart the 10 day isolation period from the day they develop symptoms. This only applies to those who begin their isolation on or after 30 July.</b></p> <p>Other members of their household (including any siblings) should self-isolate for 14 days from when the symptomatic person first had symptoms.</p> <p>If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the child, with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.</p> <p>If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom must be cleaned and disinfected using standard cleaning products before being used by anyone else.</p> <p>PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs). More information on PPE use can be found in the <a href="#">safe working in education, childcare and children’s social care settings, including the use of personal protective equipment (PPE)</a> guidance.</p> <p>As is usual practice, in an emergency, call 999 if someone is seriously ill or injured or their life is at risk. Anyone with coronavirus</p>	Yes	<p>Ensure parents have this information.</p> <p>Ensure staff are aware of this guidance and given notes by Head Teacher</p> <p>If a child becomes unwell, they are to isolate immediately, this will be the PPA room – parents contacted to collect child asap. The other children’s parents/carers in the bubble group, will be informed a child had displayed symptoms</p>	Low	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. <b>HAZARDS</b> (including inadequate / lack of arrangements)	<b>EXISTING CONTROL MEASURES</b>	<b>✓ if in place</b> <b>X if not</b>	<b>IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES</b>	<b>RESIDUAL RISK RATING</b> High, Medium, Low	
	<p>(COVID-19) symptoms should not visit the GP, pharmacy, urgent care centre or a hospital.</p> <p>Any members of staff who have helped someone with symptoms and any pupils who have been in close contact with them do not need to go home to self-isolate unless they develop symptoms themselves (in which case, they should arrange a test) or if the symptomatic person subsequently tests positive (see below) or they have been requested to do so by NHS Test and Trace.</p> <p>Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. The area around the person with symptoms must be cleaned with normal household bleach after they have left to reduce the risk of passing the infection on to other people. See the <a href="#">COVID-19: cleaning of non-healthcare settings guidance</a>.</p> <p>Public Health England is clear that routinely taking the temperature of pupils is not recommended as this is an unreliable method for identifying coronavirus (COVID-19).</p>		Ensure staff are aware of this guidance and given notes by Head Teacher		
<p><b>Review and insert in existing RA</b></p> <p>Risk of coronavirus infection spreading</p>	<p>The school will ensure that pupils clean their hands regularly, including when they arrive at school, when they return from breaks, when they change rooms and before and after eating. Regular and thorough hand cleaning is going to be needed for the foreseeable future. Points to consider and implement:</p>	YES	In addition - Wipes will be provided in every space so staff wipe down surfaces on a regular basis	LOW	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. <b>ACTIVITY:</b> Coronavirus (COVID-19) Spread and Government Advice (Page 6 of 28) (SRA R2) 18/08/2020				<b>DATE OF ASSESSMENT</b>	
<b>HAZARDS (including inadequate / lack of arrangements)</b>	<b>EXISTING CONTROL MEASURES</b>	<b>✓ if in place X if not</b>	<b>IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES</b>	<b>RESIDUAL RISK RATING</b> High, Medium, Low	
to children and staff due to inadequate infection control procedure	<ul style="list-style-type: none"> <li>has the school enough hand washing or hand sanitiser 'stations' available so that all pupils and staff can clean their hands regularly</li> <li>can the school ensure that there is enough supervision when using hand sanitiser to eliminate ingestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly. Skin friendly skin cleaning wipes can be used as an alternative</li> <li>the school will build these routines into school culture, supported by behaviour expectations and helping ensure younger children and those with complex needs understand the need to follow them</li> <li><b>Soap and water is more effective than using sanitisers</b></li> </ul> <p>The '<b>catch it, bin it, kill it</b>' approach continues to be very important, so schools must ensure that they have enough tissues and bins available in the school to support pupils and staff to follow this routine. As with hand cleaning, schools must ensure younger children and those with complex needs are helped to get this right, and all pupils understand that this is now part of how school operates. Some pupils with complex needs will struggle to maintain as good respiratory hygiene as their peers, for example those who spit uncontrollably or use saliva as a sensory stimulant. This should be considered in risk assessments in order to support these pupils and the staff working with them and is not a reason to deny these pupils face to face education.</p> <p>Public Health England does not (based on current evidence) recommend the use of face coverings in schools. This evidence will be kept under review. They are not required in schools as pupils and staff are mixing in consistent groups, and because misuse may inadvertently increase the risk of transmission. There may also be negative effects on communication and thus education. Face</p>	YES	<p>STAFF TO SUPPORT WHERE NEEDED</p> <p>SINKS AVAILABE IN ALL CLASSROOMS SANITISER in all CLASSROOMS and areas</p> <p>STAFF TO SUPPORT WHERE NEEDED</p>	LOW

	<p>coverings are required at all times on public transport (for children over the age of 11) or when attending a hospital as a visitor or outpatient.</p> <p>Points to consider and implement:</p> <ul style="list-style-type: none"> <li>• putting in place a cleaning schedule that ensures cleaning is generally enhanced and includes:               <ul style="list-style-type: none"> <li>○ more frequent cleaning of rooms / shared areas that are used by different groups</li> <li>○ frequently touched surfaces being cleaned more often than normal</li> </ul> </li> <li>• toilets will need to be cleaned regularly and pupils must be encouraged to clean their hands thoroughly after using the toilet - different groups being allocated their own toilet blocks could be considered but is not a requirement if the site does not allow for it</li> </ul> <p>See <a href="#">COVID-19: cleaning of non-healthcare settings guidance</a> for cleaning information.</p>	YES	<p>ADDITIONAL CLEANER TAKEN ON TO ENSURE REGULAR AND ROBUST CLEANING HAPPENS THROUGHOUT THE SCHOOL DAY</p> <p>Discuss with S Clark – cleaning patterns and routines of all cleaners, especially new additional role.</p>	LOW
<p><b>Review and insert existing RA.</b></p> <p>Risk of coronavirus infection spreading due to large class sizes and reduced space</p>	<p>The school will minimise contacts and mixing between people while delivering a broad and balanced curriculum.</p> <p>The overarching principle to apply is reducing the number of contacts between children and staff. This can be achieved through keeping groups separate (in 'bubbles') and through maintaining distance between individuals. These are not alternative options and both measures will help, but the balance between them will change depending on:</p> <ul style="list-style-type: none"> <li>• children's ability to distance</li> <li>• the lay out of the school</li> <li>• the feasibility of keeping distinct groups separate while offering a broad curriculum (especially at secondary)</li> </ul>	<p>Yes</p> <p>YES</p>	<p>Staff at the start of each day will ask how the pupils are feeling, eg they haven't got a new cough, high temperature or they have a loss of taste and/or smell</p> <p>School has 3 infra-red thermometers if they are needed</p> <p>In classrooms – children will not sit face to face but rather side by side facing forward</p>	LOW

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	✓ if in place X if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>It is likely that for younger children the emphasis will be on separating groups, and for older children it will be on distancing. For children old enough, they should also be supported to maintain distance and not touch staff where possible. Points to consider and implement:</p> <p><b>How to group children</b> Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. They have been used in schools in the summer term in recognition that children, and especially the youngest children, cannot socially distance from staff or from each other and this provides an additional protective measure. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate, and keep that number as small as possible.</p> <p>However, the use of small groups restricts the normal operation of schools and presents both educational and logistical challenges, including the cleaning and use of shared spaces, such as playgrounds, boarding houses, dining halls, and toilets, and the provision of specialist teaching. This is the case in both primary and secondary schools, but is particularly difficult in secondary schools.</p> <p>In this guidance for the autumn term, maintaining consistent groups remains important, but given the decrease in the prevalence of coronavirus (COVID-19) and the resumption of the full range of curriculum subjects, schools may need to change the emphasis on bubbles within their system of controls and increase the size of these groups.</p> <p>In secondary schools, and key stage 4 and key stage 5, the groups</p>		<p>Classes will remain in their bubbles when they are in school and there will be staggered breaks and lunch times.</p> <p>The Breakfast Club will run – School will follow guidance from Government – where possible maintain small, consistent bubbles</p> <p>Only a Wednesday Afterschool will run for the first half term and that will be available for the Year 5 class only. This will be reviewed over the next few weeks and other Afterschool facilities may be available.</p> <p>Staff have access to wipes/spray and will wipes down surfaces, eg desk and tables regularly</p>	LOW	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

<b>ACTIVITY:</b> Coronavirus (COVID-19) Spread and Government Advice (Page 9 of 28) (SRA R2) 18/08/2020	<b>DATE OF ASSESSMENT</b>
---------------------------------------------------------------------------------------------------------	---------------------------

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	✓ if in place X if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>are likely to need to be the size of a year group to enable schools to deliver the full range of curriculum subjects and students to receive specialist teaching. If this can be achieved with small groups, they are recommended. At primary school, and in the younger years at secondary (key stage 3), schools may be able to implement smaller groups the size of a full class. If that can be achieved, it is recommended, as this will help to reduce the number of people who could be asked to isolate should someone in a group become ill with coronavirus (COVID-19).</p> <p>Schools should assess their circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around school, they can look to implement year group sized 'bubbles'. Whatever the size of the group, they should be kept apart from other groups where possible and older children should be encouraged to keep their distance within groups. Schools with the capability to do it should take steps to limit interaction, sharing of rooms and social spaces between groups as much as possible. When using larger groups the other measures from the system of controls become even more important, to minimise transmission risks and to minimise the numbers of pupils and staff who may need to self-isolate. We recognise that younger children will not be able to maintain social distancing, and it is acceptable for them not to distance within their group.</p> <p>Both the approaches of separating groups and maintaining distance are not 'all-or-nothing' options, and will still bring benefits even if implemented partially. Some schools may keep children in their class groups for the majority of the classroom time, but also allow mixing into wider groups for specialist teaching, wraparound care and transport, or for boarding pupils in one group residentially and another during the school day. Siblings may also be in different groups. Endeavouring to keep these groups at least partially separate and minimising contacts between children will still offer public health</p>	YES	<p>During Breaks and Lunch Times classes will be kept separate and within their on bubbles. Older children will be encouraged to keep their distances, this will be supported by the staff they will be working with.</p>	LOW to Medium risk

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>benefits as it reduces the network of possible direct transmission. All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. This will be particularly important for secondary schools. Where staff need to move between classes and year groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults. Again, we recognise this is not likely to be possible with younger children and teachers in primary schools can still work across groups if that is needed to enable a full educational offer.</p> <p><b>Measures within the classroom</b> Maintaining a distance between people whilst inside and reducing the amount of time they are in face to face to contact lowers the risk of transmission. It is strong public health advice that staff in secondary schools maintain distance from their pupils, staying at the front of the class, and away from their colleagues where possible. Ideally, adults should maintain 2 metre distance from each other, and from children. We know that this is not always possible, particularly when working with younger children, but if adults can do this when circumstances allow that will help. In particular, they should avoid close face to face contact and minimise time spent within 1 metre of anyone. Similarly, it will not be possible when working with many pupils who have complex needs or who need close contact care. These pupils' educational and care support should be provided as normal.</p> <p>For children old enough, they should also be supported to maintain distance and not touch staff and their peers where possible. This will not be possible for the youngest children and some children with complex needs and it is not feasible in some schools where space does not allow. Schools doing this where they can, and even doing this some of the time, will help.</p>		Members of staff working across different year groups will be expected to wash their hands before entering another classroom and use hand sanitiser provided in school		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

DATE OF ASSESSMENT

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	✓ if in place X if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
	<p>When staff or children cannot maintain distancing, particularly with younger children in primary schools, the risk can also be reduced by keeping pupils in the smaller, class-sized groups described above. Schools should make small adaptations to the classroom to support distancing where possible. That should include seating pupils side by side and facing forwards, rather than face to face or side on, and might include moving unnecessary furniture out of classrooms to make more space.</p> <p><b>Measures elsewhere</b> Groups should be kept apart, meaning that schools should avoid large gatherings such as assemblies or collective worship with more than one group. When timetabling, groups should be kept apart and movement around the school site kept to a minimum. While passing briefly in the corridor or playground is low risk, schools should avoid creating busy corridors, entrances and exits. Schools should also consider staggered break times and lunch times (and time for cleaning surfaces in the dining hall between groups).</p> <p>Schools should also plan how shared staff spaces are set up and used to help staff to distance from each other. Use of staff rooms should be minimised, although staff must still have a break of a reasonable length during the day.</p> <p><b>Measures for arriving at and leaving school</b> Travel to school patterns differ greatly between schools. If those patterns allow, schools should consider staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave school. Staggered start and finish times should not reduce the amount of overall teaching time. A staggered start may, for example, include condensing / staggering free periods or break time but retaining the same amount of teaching time, or keeping the length of</p>		<p>For pupil arrival – the school has initially planned a flexible start time from 8.40am – 9.15am to support those families who have sibling links across the school. There is more detailed instructions for collection at the end of the school day. Parents have been informed regarding the details, plans are flexible and if need be will be changed and adapted if the system does not work. Parents were informed of these details before the school finished in the Summer Term</p>	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	✓ if in place X if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low	
	<p>the day the same but starting and finishing later to avoid rush hour. Schools should consider how to communicate this to parents and remind them about the process that has been agreed for drop off and collection, including that gathering at the school gates and otherwise coming onto the site without an appointment is not allowed.</p> <p>Please ensure that you contact your Road Safety Advisor regarding any changes to start and finishing times to ensure that appropriate safety measures are updated, e.g. School Crossing Patrols, safer parking, etc.</p> <p>The Department for Education will be supporting schools across the summer on how best to communicate with parents and pupils (and staff) on what to expect on their return and the procedures and expectations in relation to the control measures schools have put in place.</p> <p>Schools should also have a process for removing face coverings when pupils and staff who use them arrive at school and communicate it clearly to them. Pupils must be instructed not to touch the front of their face covering during use or when removing them.</p> <p>They must wash their hands immediately on arrival (as is the case for all pupils), dispose of temporary face coverings in a covered bin or place reusable face coverings in a plastic bag they can take home with them, and then wash their hands again before heading to their classroom. Guidance on <a href="#">safe working in education, childcare and children's social care</a> provides more advice.</p> <p><b>Other considerations</b> Some pupils with SEND (whether with education, health and care plans or on SEN support) will need specific help and preparation for the changes to routine that this will involve, so teachers and special educational needs coordinators should plan to meet these needs, for example using social stories.</p>		<p>Discuss this with the LA, slightly earlier start times and families with sibling links being collected at the end of the day earlier than usual.</p> <p>Initially, children will be told there is not a need to wear masks as the rooms will be well ventilated and children will not be sitting face to face. Shields have been ordered for all staff, they will be informed if they feel safer to wear them they can and they remain on premises at the end of the day and are wiped down with anit-bacterial wipes. SA's will place their shields in a named bag and left in the First Aid room by the school office.</p>		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>Supply teachers, peripatetic teachers and/or other temporary staff can move between schools. They should ensure they minimise contact and maintain as much distance as possible from other staff. Specialists, therapists, clinicians and other support staff for pupils with SEND should provide interventions as usual. <b>Schools should consider how to manage other visitors to the site, such as contractors, and ensure that the risks associated with managing contractors, visitors, catering staff and deliveries, as well as cleaning staff on site who may be working throughout the school and across different groups, are addressed. This will require close cooperation between both schools and the other relevant employers. Schools should have discussions with key contractors about the school's control measures and ways of working as part of planning for the autumn term. Schools should ensure site guidance on physical distancing and hygiene is explained to visitors on or before arrival. Where visits can happen outside of school hours, they should. A record should be kept of all visitors.</b></p> <p><b>As normal, schools should engage with their local immunisation providers to provide immunisation programmes on site, ensuring these will be delivered in keeping with the school's control measures. These programmes are essential for children's health and wellbeing and can also provide benefits for staff.</b></p> <p>Where a child routinely attends more than one setting on a part time basis, for example because they are dual registered at a mainstream school and an alternative provision setting or special school, schools should work through the system of controls collaboratively, enabling them to address any risks identified and allowing them to jointly deliver a broad and balanced curriculum for the child.</p> <p>Equipment and resources are integral to education in schools. During the summer term, their use was minimised, many were moved out of</p>		<p>The main office (reception) glass screen will remain closed. They will be provided with school guidance issued by Stanhope Primary and asked to sanitise hands on arrival. Office staff will advise and guide any visitors on site.</p> <p>Deliveries will be left at the main reception, food deliveries will be dropped at the kitchen door of the school building</p> <p>Interventions for children will continue and will be supported in designated areas, preferably a well ventilated room.</p>		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>classrooms, and there was significant extra cleaning. That position has now changed for the autumn term, because prevalence of coronavirus (COVID-19) has decreased and because they are so important for the delivery of education. For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared. Classroom based resources, such as books and games, can be used and shared within the bubble; these should be cleaned regularly, along with all frequently touched surfaces. Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles.</p> <p>Outdoor playground equipment should be more frequently cleaned. Pupils must sanitise their hands before and after playing on outdoor equipment.</p> <p>To help mitigate the spread on wood play equipment pupils must sanitise their hands before and after playing on outdoor equipment. Further details on cleaning the equipment will be provided by STC Public Health.</p> <p>KOMPAN Play equipment have stated that “The best way to clean Kompan products and disinfect for Corona virus is to use soap and water, so use normal household cleaning products. Diluted bleach can be used, undiluted bleach must not be used.” Ensure bleach is diluted to the correct level and always follow the guidance on the container and MSDS. If you are to use diluted bleach:</p> <ul style="list-style-type: none"> <li>• Read and follow the instructions</li> <li>• Use the recommended amount of product</li> <li>• Keep out of the reach of children</li> </ul>		<p>This guidance to be shared with all staff including the Site Manager and cleaning staff.</p>	

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. <b>ACTIVITY:</b> Coronavirus (COVID-19) Spread and Government Advice (Page 21 of 28) (SRA R2) 18/08/2020	<b>DATE OF ASSESSMENT</b>
-------------------------------------------------------------------------------------------------------------	---------------------------

HAZARDS (including inadequate / lack of arrangements)	EXISTING CONTROL MEASURES	✓ if in place X if not	IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES	RESIDUAL RISK RATING High, Medium, Low
<p>Replace in existing RA</p> <p>Risk of coronavirus infection spreading due to use of transport</p>	<p>Adjust transport arrangements where necessary including:</p> <ul style="list-style-type: none"> <li>encourage parents and children and young people to walk or cycle to their education setting where possible</li> <li>make sure schools, parents and young people follow the <u>Coronavirus (COVID-19): safer travel guidance for passengers</u> when planning their travel</li> <li>ensure that transport arrangements cater for any changes to start and finish times</li> <li>communicating revised travel plans clearly to contractors, local authorities and parents where appropriate (for instance, to agree pick-up and drop-off times)</li> </ul> <p>Social distancing has significantly reduced available transport capacity. This guidance sets out a new framework for supporting transport to and from schools from the autumn term. We are making a distinction between dedicated school transport and wider public transport:</p> <ul style="list-style-type: none"> <li>by dedicated school transport, we mean services that are used only to carry pupils to school. This includes statutory home to school transport, but may also include some existing or new commercial travel routes, where they carry school pupils only</li> <li>by public transport services, we mean routes which are also used by the general public</li> </ul> <p><b>Dedicated school transport, including statutory provision</b> Pupils on dedicated school services do not mix with the general public on those journeys and tend to be consistent. This means that the advice for passengers on public transport to adopt a social distance of two metres from people outside their household or support bubble, or a 'one metre plus' approach where this is not possible, will not apply from the autumn term on dedicated transport. The approach to dedicated transport should align as far as possible with the principles underpinning the system of controls set out in this</p>		<p>Advise parents again of other options to travel to school</p> <p>Many parents walk to school Due to the extended arrival time – it is anticipated that there will be reduced congestion on the roads – nearby the school. Parents will be discouraged from using the car park but the gates WILL not be closed.</p>	<p>LOW to Medium</p>

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>document and with the approach being adopted for your school. It is important to consider:</p> <ul style="list-style-type: none"> <li>• how pupils are grouped together on transport, where possible this should reflect the bubbles that are adopted within school</li> <li>• use of hand sanitiser upon boarding and/or disembarking</li> <li>• additional cleaning of vehicles</li> <li>• organised queuing and boarding where possible</li> <li>• distancing within vehicles wherever possible</li> <li>• the use of face coverings for children over the age of 11, where appropriate, for example, if they are likely to come into very close contact with people outside of their group or who they do not normally meet</li> </ul> <p>Dedicated school services can take different forms. Some journeys involve coaches regularly picking up the same pupils each day, others involve use of a minibus whilst other services are used by different pupils on different days, or by pupils with SEND. The precise approach taken will need to reflect the range of measures that are reasonable in the different circumstances.</p> <p>It will also require a partnership approach between local authorities, schools, trusts, dioceses and others. In particular, it is imperative that schools work closely with local authorities that have statutory responsibility for 'home to school transport' for many children, as well as a vital role in working with local transport providers to ensure sufficient bus service provision.</p> <p>Given the pressures on public transport services it may also be necessary to work with local authorities so that they can identify where it might be necessary to provide additional dedicated school transport services, including in places where these services do not currently operate. See DfE guidance <a href="#">Transport-to-school-and-other-places-of-education-autumn-term-2020</a></p> <p><b>Wider public transport</b></p>			

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>STC are currently working with transport providers and schools to plan safe, consistent transport for all staff and pupils.</p> <p>Families using public transport should refer to the <a href="#">safer travel guidance for passengers</a> and <a href="#">Transport-to-school-and-other-places-of-education-autumn-term-2020</a></p> <p><b>AWAITING LOCAL INFORMATION REGARDING TRANSPORT PLAN</b></p>				
<p>Replace in existing RA</p> <p>Risk of coronavirus infection spreading to shielded and clinically vulnerable adults</p>	<p>Where schools implement the system of controls outlined in this document, in line with their own workplace risk assessment, PHE and DHSC confirm that these measures create an inherently safer environment for children and staff where the risk of transmission of infection is substantially reduced.</p> <p>As a result, on current evidence, PHE and DHSC advise that schools are not currently considered high risk settings when compared to other workplace environments. Rates of community transmission of coronavirus (COVID-19) are now reduced to levels below those seen when shielding was introduced, and shielding measures will be paused from 1 August 2020, with the exception of areas where local lockdown means that shielding will continue. It is therefore appropriate for teachers and other school staff to return to their workplace setting. Accordingly, we expect that staff who need to will attend school.</p> <p>From 1 August, wider government policy on going to work is expected to change, with employers to be given more discretion about where staff work. Most school-based roles are not ideally suited to home working and schools may expect most staff to return to work in settings. Some roles, such as some administrative roles, may be conducive to home working, and school leaders should consider what is feasible and appropriate.</p> <p>All staff should follow the measures set out in the system of controls section of this guidance to minimise the risks of transmission. This</p>		All staff, pupils and visitors will be expected to wash their hands regularly throughout the day or however long they are on premises. There is plenty hand sanitiser in every area around school.		

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

	<p>includes continuing to observe good hand and respiratory hygiene and maintaining social distancing in line with the provisions as set out in part 5 of the 'Prevention' section.</p> <p>School leaders should explain to staff the measures the school is putting in place to reduce risks. We anticipate adherence to the measures in this guidance will provide the necessary reassurance for staff to return to schools.</p> <p>If staff are concerned, including those who may be clinically vulnerable, clinically extremely vulnerable or at increased comparative risk from coronavirus, we recommend school leaders discuss any concerns individuals may have around their particular circumstances and reassure staff about the protective measures in place.</p> <p><b>Staff who are clinically extremely vulnerable</b>            Rates of community transmission of coronavirus (COVID-19) are now reduced to levels below those seen when shielding was introduced. Shielding measures will therefore be paused from the 1 August 2020, with the exception of areas where local lockdown means that shielding will continue. Therefore, we advise that those who are clinically extremely vulnerable can return to school in September 2020 provided their school has implemented the system of controls outlined in this document, in line with the school's own workplace risk assessment. In all respects, the clinically extremely vulnerable should now follow the same guidance as the clinically vulnerable population, taking particular care to practise frequent, thorough hand washing, and cleaning of frequently touched areas in their home and/or workspace.</p> <p><b>Staff who are clinically vulnerable</b>            Clinically vulnerable staff can return to school in September. While in school they should follow the sector-specific measures in this document to minimise the risks of transmission.</p> <p>This includes taking particular care to observe good hand and respiratory hygiene, minimising contact and maintaining social</p>

	<p>distancing in line with the provisions set out in section 5 of the 'Prevention' section of this guidance. This provides that ideally, adults should maintain 2 metre distance from others, and where this is not possible avoid close face to face contact and minimise time spent within 1 metre of others. While the risk of transmission between young children and adults is likely to be low, adults should continue to take care to socially distance from other adults including older children/adolescents.</p> <p>People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace.</p> <p><b>Staff who are pregnant</b></p> <p>Pregnant women are in the 'clinically vulnerable' category, and are generally advised to follow the above advice, which applies to all staff in schools. Employers should conduct a risk assessment for pregnant women in line with the Management of Health and Safety at Work Regulations 1999 (MHSW)</p> <p><a href="https://www.southtyneside.gov.uk/article/36422/Health-and-Safety-Manual-2019">https://www.southtyneside.gov.uk/article/36422/Health-and-Safety-Manual-2019</a> - see Section 3.10 and Appendix F.</p> <p>The Royal College of Obstetrics and Gynaecology (RCOG) has published <a href="#">occupational health advice for employers and pregnant women</a>. This document includes advice for women from 28 weeks gestation or with underlying health conditions who may be at greater risk. We advise employers and pregnant women to follow this advice and to continue to monitor for future updates to it.</p> <p><b>Staff who may otherwise be at increased risk from coronavirus (COVID-19)</b></p> <p>Some people with particular characteristics may be at comparatively increased risk from coronavirus (COVID-19), as set out in the <a href="#">COVID-19: review of disparities in risks and outcomes report</a>, which looked at different factors including age and sex, where people live, deprivation, ethnicity, people's occupation and care home residence. These staff can return to school in September as long as</p>				

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

<b>HAZARDS</b> (including inadequate / lack of arrangements)	<b>EXISTING CONTROL MEASURES</b>	<b>✓ if in place</b> <b>X if not</b>	<b>IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES</b>	<b>RESIDUAL RISK RATING</b> High, Medium, Low
	<p>the system of controls set out in this guidance are in place. The reasons for the disparities are complex and there is ongoing research to understand and translate these findings for individuals in the future.</p> <p>People who live with those who have comparatively increased risk from coronavirus (COVID-19) can attend the workplace.</p>			
<p>Replace in existing RA</p> <p>Risk of coronavirus infection spreading to shielded and clinically vulnerable persons via pupil or staff attending school</p>	<p><b>Pupils who are shielding or self-isolating</b></p> <p>We now know much more about coronavirus (COVID-19) and so in future there will be far fewer children and young people advised to shield whenever community transmission rates are high. Therefore, the majority of pupils will be able to return to school. You should note however that:</p> <ul style="list-style-type: none"> <li>a small number of pupils will still be unable to attend in line with public health advice because they are self-isolating and have had symptoms or a positive test result themselves; or because they are a close contact of someone who has coronavirus (COVID-19)</li> <li>shielding advice for all adults and children will pause on 1 August, subject to a continued decline in the rates of community transmission of coronavirus (COVID-19). This means that even the small number of pupils who will remain on the shielded patient list can also return to school, as can those who have family members who are shielding. Read the <a href="#">current advice on shielding</a></li> <li>if rates of the disease rise in local areas, children (or family members) from that area, and that area only, will be advised to shield during the period where rates remain high and therefore they may be temporarily absent (see below).</li> <li>some pupils no longer required to shield but who generally remain under the care of a specialist health professional may need to discuss their care with their health professional before returning to school (usually at their next planned</li> </ul>			LOW to MEDUIM
