

Dear Parent/Carer,

I am sure you are all aware of the content of our Covid19 risk assessment. It is clear that children must be working in bubbles in well ventilated classrooms. This means that all windows in all classrooms are open every day. I recognise that as the days are becoming colder, even with the heating on, some children may feel the cold in school.

Could I ask that you ensure that your child comes to school wearing plenty of layers, perhaps a long white t-shirt under their school t-shirt or a cardigan on top of their school sweatshirt.

There are also school fleeces available from initial images at a cost of £11.99 which children could wear in class. Please be aware there is no expectation for you to purchase a fleece.

I trust you understand that whilst this is not an ideal situation it is very necessary to ensure we mitigate against all risks to reduce the spread of Covid in our school.

Thank you.

Mrs A Willis
Head Teacher
