Learning Coordinator Award

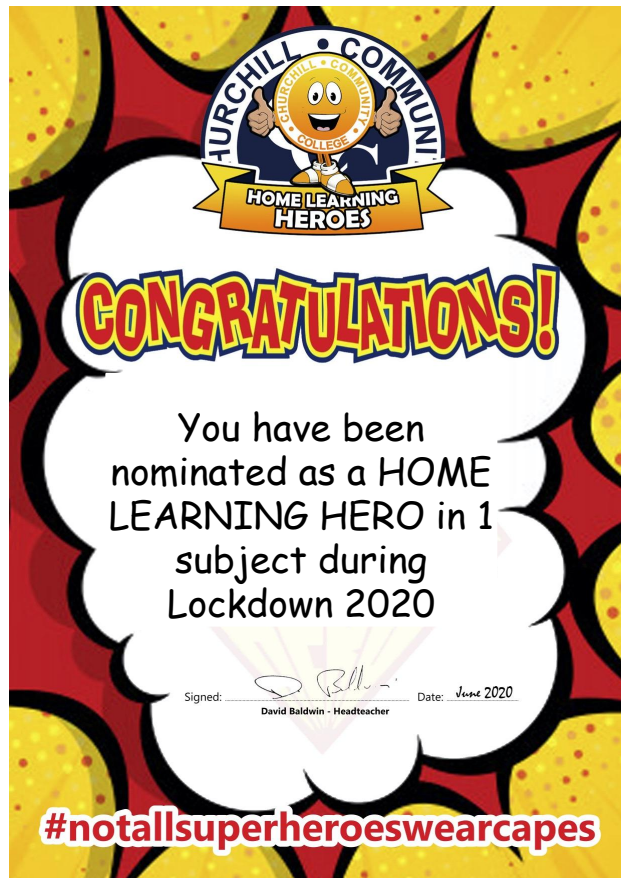

Headteachers Award

Year 11

Subject Stars - English - Louise Jamieson

Louise represents so many positive qualities as a student: she is bright and ambitious and understands what it means to work hard to really stretch herself. She has been an absolute joy to teach and I'm convinced she will do brilliantly in whatever path she takes in the future.

Subject Stars - Maths - Jack Watson

Jack is an able mathematician who over the years has really flourished. He picks up new topics quickly and never seems to forget anything. He is always willing to give anything a go and loves a challenge. Jack has always wanted to succeed at maths and this can be seen by the fantastic results he achieved in his most recent mocks. During the 3 to 5 sessions Jack would often support other students and offer help in any way that he could. I wish him all the best for the future and if the football doesn't work out I know he will always have a strong future involving maths.

Subject Stars - Science - Hermione Richardson

Hermione showed an excellent dedication to her Science work, often completing extra reading and going far beyond what was asked of her. She has excellent overall scientific knowledge and is one of the most talented scientists we have ever had in year 11.

Subject Stars - Geography - Jack Watson

Jack is a bright, capable student with a natural ability in Geography. He is quick to pick up new ideas and concepts and is able to develop these with logical arguments based on his own understanding and knowledge. He is also ambitious and wants to succeed, this he demonstrated in his mock exams and in the extra work he does outside of the class. Jack's ability to work with others and his general positivity enable those around him to achieve to their full potential. Well done Jack

Subject Stars - History - Lewis Ransome

Lewis has been a real pleasure to teach over the years and has fully committed to his work in History. He worked so hard to achieve the highest grade in his mock exams and never gave up. He attended additional sessions to focus on exam technique and was determined to do well. He is an absolute star!

Subject Stars - Food Technology - Neve Corbett

Neve has always given her all to Food/Catering. She is determined, hard working, a positive role model for others and really wants to achieve well. She has risen to every challenge set and encouraged others to do the same. Neve has been an absolute pleasure to teach and I have no doubt she will be absolutely successful in her chosen path. Very well done Neve!

Subject Stars - Health & Social - Lauren O'Hara

Lauren is a determined, hardworking student who has given her all to Health and Social Care. She always displays a can do attitude, really wants to do well and always tries her best. Lauren has demonstrated resilience and worked hard to overcome any barriers. She is confident, articulate and I wish her the very best for her future.

Subject Stars - Design Tech - Jack Scudder

Jack worked exceptionally hard in Year 11 on his NEA. He was always independent with his work, but also supported others with their work too. Jack received a grade 9 in his February mock exam. This was a huge improvement from his previous mock and showed how determined he was to learn and improve his knowledge and understanding of the theory work. Jack's behaviour was impeccable and his sense of humour admirable.

Subject Stars - ICT - Emily Bryden

Emily worked exceptionally hard in Year 11 on her controlled assessment and her exam preparation for iMedia, achieving a Distinction in her January exam and producing outstanding work in the classroom. Her dedication to her work was commendable and she approached every task with a smile, even when she faced challenges. Emily was an absolute pleasure to teach.

Subject Stars - Computer Science - Jack Clifton

Jack's enthusiasm for computer science really flourished during his programming project. He was asked to complete one of three projects. Instead, he completed all three to an incredibly high standard. This sparked something in Jack which went from strength to strength securing grade 9s in some of mock examinations. Without a doubt, Jack is worthy of this award and will make an outstanding A-Level student next year. We look forward to working with him.

Subject Stars - Business Studies - Caitlin May

Since year 9, Caitlin has always been an absolute pleasure to teach. A passion for learning, hard working, independence and perseverance when the subject matter was more challenging are all characteristics Caitlin has demonstrated. She is a very determined student and along with staff set high expectations for her own progress in Business Studies. Homework was always completed to an extremely high standard and work ethos here ensured Caitlin developed a very strong and solid understanding of business concepts. Caitlin has not always believed she is as capable as staff believe and we hope this award goes some way to starting her 6th form journey with increased confidence and self-belief.

Subject Stars - Music - Max Vasey

Max always demonstrated 100% commitment to the subject. He worked diligently both at school and at home in order to complete his coursework to the best of his ability. Always willing to and respond to feedback given.

Subject Stars - Performing Arts - Megan Kate Hardy

Megan throughout Performing Arts has challenged herself to ensure her work is up to good standard. Especially through Year 11 Megan's confidence has increased which has allowed her to develop throughout the different principles in Performing Arts. She has been an absolute pleasure to teach.

Subject Stars - PE - Louie Margison

An outstanding student who has demonstrated exceptional values since joining in Year 7. He has embraced every opportunity presented to him, tried new activities and achieved success in a range of sports. Combine this with his academic achievement, consistency and attitude in GCSE PE this student is an exceptional role model for students across the school.

Subject Stars - Art - Hermione Richardson

Such a committed student, always quietly working away both in school and at home, Hermione completes all work to the best of her ability and takes on board any suggestions to improve her work. She has shown a dogged determination to succeed in the subject and her skills have really improved over her GCSE Art course

Subject Stars - French - Jack Watson

Jack loved languages and every lesson he would engage fully with every activity so that he was able to continuously improve his knowledge of French vocabulary. Not only that, he spent a great deal of his independent study time ensuring that he was working diligently towards his speaking exam. He has always been a pleasure to teach and his behaviour was always outstanding in every lesson.

Subject Stars - Spanish - Hermione Richardson

Hermione was a brilliant linguist and dedicated lesson time and independent study time to perfecting her knowledge of high-level language and being able to use these effectively in her work. She was always willing to take part in classroom discussions in Spanish and also made sure that her written work was always to the highest possible standard. Well done, Hermione! You are an amazing student!
