Letter of Introduction

Dear Year 7 Teachers,

I am writing to you to introduce myself to you all.

My name is Kitana and I am really excited to join Jarrow School because it will be a new experience for me. In this new school year, I'm going to be the best me I can be. My goal for secondary school is to make new friends and not make any enemies.

During lockdown, I have discovered the new me. While I have been bored, I have realised what new sports I like to do and what things I like to do in my free time. For example, I have realised that I really enjoy reading books, however I only read the books I enjoy because that's what makes it fun. Over the first 2 weeks of lockdown, I was always on my phone but then I started to get bored and I noticed that I could reach out to friends that I haven't seen in a while.

After a few months in lockdown, we had a decision to make. It was whether we stayed home or went to school. I really wanted to go back to school, and now here I am, writing a letter to you from school!

During the first week back at school, I really enjoyed it because there weren't as many people and you couldn't get distracted easily. While I was in school, I loved Maths because it was challenging but fun at the same time. Also, English is really fun: we are reading a book called The Ickabog and I think my Ickabog writing is the best writing I've done all year. Drawing in art, which is really fun, always makes me really happy because I love all the wonderful creations and patterns you can make.

When I'm not in school, I love to act, dance and sing [performing arts] and I also got a scholarship for a Performing Arts school called Stagecoach. I find it really special because it is a world wide thing and there are so many around the world. It feels so great to be this lucky to get a scholarship to something so amazing. When I act, I feel like a whole new person because when you act you feel like the character. In the school pantomime, I was the main character who was called Abanazar: he is a mean man who wants all the money in the world but he was a girl in the panto!

A little bit about me: I am an 11 year old girl and I am intelligent. I am quite popular and I never let my friends down. I am funny, generous and hopefully I come across as a nice person to people I meet.

In the future, I hope to become an actress/actor and star in a movie. If I had to choose out of singing, acting and dancing, I would choose acting because in acting, you have the opportunity to sing and dance depending on what role you have. While you perform, you can get to know the people you are working with and if you get along with them, you will eventually be best friends and that's why I like it. You can always make your dreams come true.

Yours sincerely

Kitana
