

# PLASTIC FREE SCHOOLS

SURFERS AGAINST SEWAGE

## WELCOME!

Plastic Pollution is an unwelcome but expected sight at every beach, park, river and public space across the planet. It is wreaking havoc and destruction in our wild spaces and to the wildlife that live there.

### WHY WE NEED YOU:

Together we can kick our addiction to avoidable single-use plastic, and change the system that produces it. We can make sure we don't choke our streets, parks and playgrounds with it. Because if it's on our street today, then it's in our rivers tomorrow, and our beaches and oceans forever. We can make sure each of us understands that we can change this, whoever we are, wherever we live and wherever we go to school!

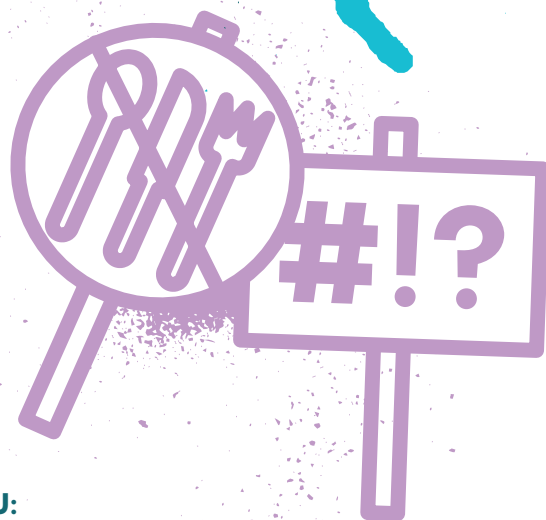

### HOW TO ACHIEVE PLASTIC FREE SCHOOL STATUS:

By reading this poster you are already taking a vital step towards achieving Plastic Free School Status.

There are 5 objectives that your school needs to achieve.

In each objective you will be inspiring others to take action, fighting plastic pollution from the ground up and challenging not just your fellow pupils but government and industry too!

# TOGETHER WE WILL CREATE PLASTIC FREE SCHOOLS!

# LET'S GET STARTED!
