

Yorkshire and Humber AHSN Patient Safety Collaborative

Opportunity for Funded Post Graduate Study in Patient Safety

Apply online here

Closing Date: 12 noon, Monday 18th September 2017

The National Patient Safety Collaborative intends to leave a legacy in academic rigour, and continuing to build capability to address quality and safety challenges. The Yorkshire & Humber AHSN Patient Safety Collaborative is offering support to a small number of post graduate students in the region to undertake full or part-time courses with a clear patient safety focus, starting in 2017.

There are a range of courses and providers across the country (**see over for a non-exhaustive list of suggestions**) and candidates should consider which course best meets their needs in terms of course content, location and other practicalities. Whichever post-graduate course is selected applicants will need to demonstrate there is a clear patient safety component.

Who is eligible to apply?

- Applicants should work in the healthcare sector (NHS) and be based in the Yorkshire and Humber region.
- Have recent experience of working in patient safety or a quality improvement environment.
- Be engaged with or connected to the Yorkshire & Humber AHSN Patient Safety Collaborative programme or be able to demonstrate how their experience aligns to the work of the collaborative in the region, including the new national focuses of maternity, safety culture or deteriorating patients.
- Have the support of their employers to be released to undertake study (full or part-time) where needed.
- Have a degree in a healthcare related subject or a relevant clinical professional or managerial qualification.
- Show an aptitude for becoming leaders in patient safety.
- Meet both the university criteria and Yorkshire & Humber AHSN Patient Safety Collaborative criteria before seeking funding.
- Applicants must also be willing to share their academic journey with the Yorkshire & Humber AHSN throughout the period of funding.

To apply please complete an **online application** here or type in the URL address: bit.ly/2wxYxsc so we can consider you.

Please note funding is for fees only. Study leave and other expenses are not included.

Applications close by 12 noon Monday 18th September. Applicants may be invited to a telephone interview week beginning 25th September 2017.
