

This year, Zilio A&C joined forces with Sweden's Note Design Studio to produce Arkad, a playful pouffe inspired by the familiar architectural form of an arcade. Use a single Arkad piece as an interior graphic accent, or multiple pieces to create a seating system. Available in two lengths and a corner unit.

We welcome Pebble, a stool, sidetable and bench family designed by Tomoko Azumi. Reflecting on the adaptability of simple stools and benches, Azumi designed three irregularly shaped surfaces in solid ash, with slim legs in two heights, inviting the users to do as they wish — to sit or to place objects.

We've added a variation to Etta, the room divider we presented last year developed with Italian duo Dossofiorito. The new version includes a coat hanger rail, a storage box with tray, and a large mirror.

Lastly, London-based designers Mentsen have extended the Rapa seating family. With solid wood legs, the new piece is a slimmer and smarter sister to its collection of stacking siblings.

Presented at hall 10 stand E19 during the Salone del Mobile.Milano 2018.

Based in Northern Italy, Zilio A&C is a family-run business historically known for chair making. Today, we work with a handful of talented designers and studios around the world, and collaborate with local craftspeople celebrated for their production skills and knowledge of new technologies. The result is beautiful products that suit contemporary life at home and work.
