

# Tax Technology

In a well-integrated post-BEPS world, using technology to manage tax effectively is crucial for tax department within any multinational group. TPA Global has a complete series of software suites to assist the tax department in performing their tasks.

Our software suites are able to combine data extraction, data analytics and compliance functionality into one comprehensive tax technology platform.

# Tax Technology Platform

Our tax technology platform consists of various modules allowing to select the most suitable solution to meet your needs. 

## Global Tax Compliance

- World-wide tax provision calculation
- Tax risk assessment
- Tax data collection
- Audit Tracker
- Transformation of tax compliance provision into analytical information

## Global Global Transfer Pricing Compliance

- Three-tiered transfer pricing (TP) documentation (local file, master file, country-by-country report)
- Value chain analysis
- CbCR risk indicators analysis

## Tax & Transfer Pricing Workflow Management

- Centralized production dashboard
- Production calendar
- Cloud-based solution for global-wide participation
- Web-based workflow trackers
- Application of ISO standards

## Tax & Transfer Pricing E-learning

- Memory trainers
- Online courses
- Online exams and qualifications

## FEATURES

Our software suites' major features are:

- Trouble-free integration to any IT infrastructure through cloud-based solutions
- Accurate data collection and efficient processing of financial information
- Streamlining of global tax/TP reporting and improvement of compliance worldwide
- Significant reduction of manual labor requirements
- Automation of tax/TP risk identification based on key risk indicators functions
