WHO WE ARE & WHAT WE DO

WHO WE ARE

TPA Global is an independent professional service and solutions partner that serves its client globally through a network of Members and Alliance Partners in over 60 countries.

HOW WE WORK

Global Markets are resulting in companies operating cross border with multiple product lines, multiple governance and business models. It is in this complex environment that we thrive. We understand the multiple requirements of multinationals operating in this market. We like to coordinate our project efforts through centrally managing our mandates via our central services platform always operational led by one of our Senior Partners. This Platform manages cross-border and cross-disciplinary teams of professionals and delivers and implements pragmatic solutions for our clients.

OUR SOLUTIONS

Our solutions range from international tax related services such as Tax Governance, Transfer Pricing and Indirect Taxes, to Merger & Acquisitions support to Operational Performance enhancement services like location selection, supply chain optimization, and more.

TPA Global provides pragmatic solutions and helps you implement them!

WHY TPA GLOBAL

GLOBAL NETWORK, INTERNATIONAL EXPERIENCE, LOCAL EXPERTISE

Overseeing multi-country operations? In over 60 countries across the globe, you can have your complex issues resolved by our internationally experienced professionals with comprehensive local knowledge. You no longer need to worry about looking for scattered information. We help you find accurate local information and provide integrated solution that works for your cross border operations.

HOW WE WORK

Global Markets are resulting in companies operating cross border with multiple product lines, multiple governance and business models. It is in this complex environment that we thrive. We understand the multiple requirements of multinationals operating in this market. We like to coordinate our project efforts through centrally managing our mandates via our central services platform always operational led by one of our Senior Partners. This Platform manages cross-border and cross-disciplinary teams of professionals and delivers and implements pragmatic solutions for our clients.

PRAGMATIC SOLUTION

Experiencing discrepancies between the plan and execution? We provide solutions that actually work.

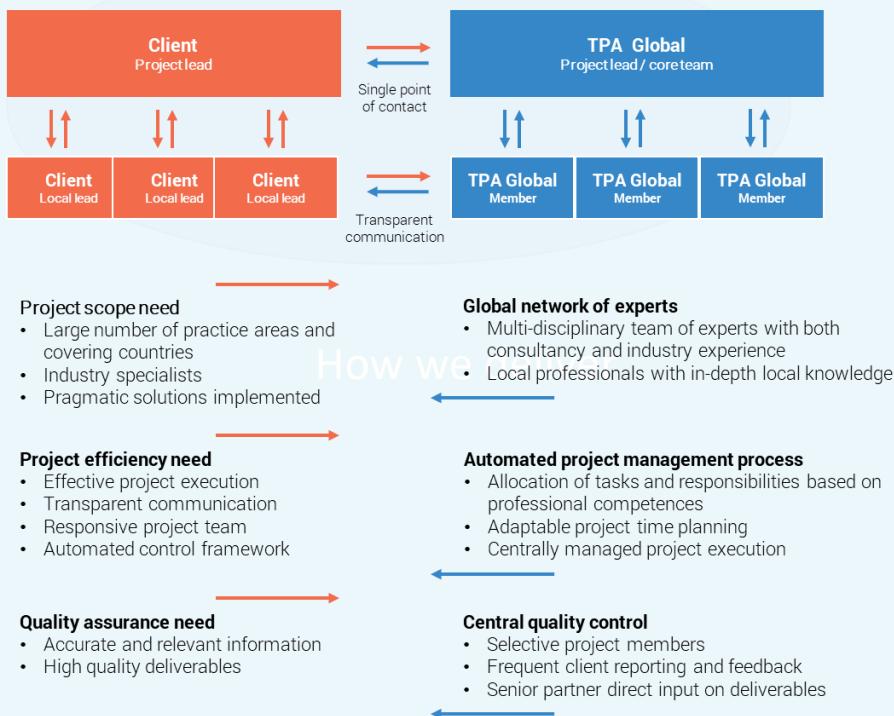

CENTRAL PROJECT MANAGEMENT, EFFICIENT PROCESS, HIGH QUALITY DELIVERABLES

We ensure everything run smoothly for you. You will have a single point of contact between your project lead and TPA Global's core team. We assemble a multidisciplinary project team tailored to your needs, then centrally coordinate recourses and communications among local experts. All deliverables are supervised and reviewed by our internationally experienced core team lead to make sure the work is integrated with a high quality, and the solution works on both local and global level.

OPEN COMMUNICATIONS

Missing information or discovering crucial information at the last minute? Our agile project team encourages and is built upon open communications. Apart from the frequently scheduled client reporting and feedback sessions, our line is always open for questions and information sharing – not only between your project lead and ours, but also among your local project team and ours. In this way, we can quickly adjust the project in adaptation to real time information. Transparent communications help you avoid unnecessary cost and reduce the risk of failure.

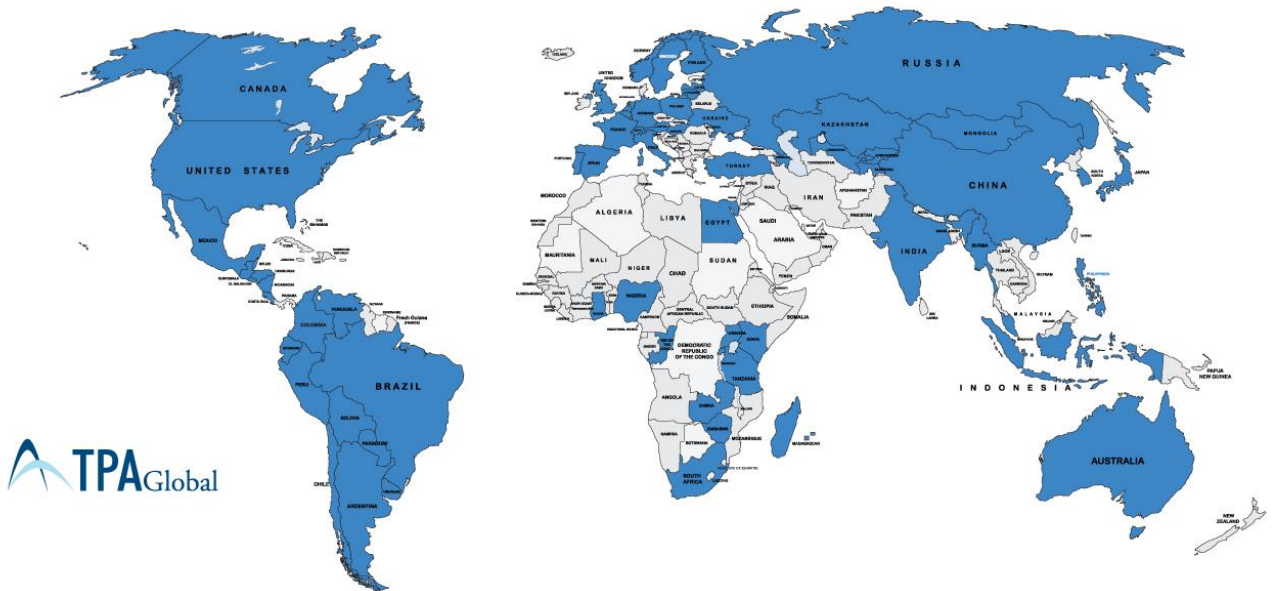

HOW WE DELIVER

OUR NETWORK

TPA Global is an independent professional services and solutions partner that serves its client globally through a network of Members and Alliance Partners in over 60 countries. We understand the multiple requirements of multinationals operating in the international market. We coordinate our project mandates via our central services platform that is operationally led by Senior Partners.

This Platform manages cross-border and cross-disciplinary teams of professionals and delivers pragmatic solutions for our clients.
