

# TPA Global Tax Technology

# 1 Who We are

TPA Global is a world leading professional services and solutions partner that operates through a global members network. Our global team consists of 1000 professionals who are experienced in the area of Transfer Pricing & BEPS, Value Chain Analytics and Technology Solutions.

We understand the multiple requirements of multinationals and deliver pragmatic solutions for our clients.

# 2 Landscape Today

Tax departments are facing an increased compliance burden and fewer opportunities for optimization. Technology is challenging today's workflows transforming the way you work. Therefore, TPA Global has introduced a series of innovative "ERP for tax" solutions allowing improvement of your operations. As a result, tax departments move from "staying out of trouble" to "being in control".

# 3 Tax Technology Solutions

- Global Enterprise Tax Solutions, including country tax returns and TP forms;
- Transfer Pricing Solutions, including reporting and other applications;
- Workflow management on tax, TP, tax accounting and customs, including integrated dashboards and planning calendar;
- E-Learning solutions and memory trainers.

# 4 What Are Your Key Benefits?

- Significant reduction of manual work through automation;
- Simple execution of "what-if" financial and tax simulations;
- Proactive calendar management of your tax and TP production;
- More structured and efficient workflows; and
- Accurate data stored in central location and reported locally in required format.
