Why choose Broadway?
We fully understand the demands of Post 16 education and recognise that the most successful students combine outstanding academic performance with a depth of experiences from the world around them.

We offer our students the opportunity to develop both areas. There is an excellent pastoral team in place that works closely with students to support and offer guidance on key Sixth Form matters. Our UCAS support is thorough and we have built fantastic links with local Universities, businesses and apprenticeship providers.

Why is enrichment important?
It’s what separates you from the rest! It can make your CV stand out or your UCAS application go to the top of the pile. This is why we make sure that Broadway students access a comprehensive Enrichment programme.

Our programme runs over 2 years and allows students to work on Duke of Edinburgh Silver award, enterprise initiatives, social action, product design and sports leadership level 1.

As well as this, students will have the opportunity to be involved in mentoring and volunteering. We have a number of sporting fixtures throughout the year and provide opportunities to travel abroad. All students do an employability programme and are encouraged to work with students in the lower years.

All students also study the Extended Project Qualification (EPQ) in Year 12. This is a highly desirable qualification that can be based around future career choices or areas of interest.

Successful completion of the EPQ has led to our students receiving reduced offers from top universities and being interviewed at Oxford and Cambridge.

Entry Requirements
Entry Requirements for A level study are a minimum of 6 C’s including Maths and English. BTEC merit will only be counted as one C. For Science subjects you need two B’s in science. To study A level Maths or English you need a B grade Minimum in those courses.

Entry Requirements for BTEC study are 5 C’s including Maths or English. BTEC Merit will count as one C.

Our curriculum:

A–Levels
- Biology
- Business Studies
- Chemistry
- Drama
- English Lit. & English Language combined

Open day - Thursday October 13th 2016: 4.00pm - 6.30pm
About us
The Sixth Form curriculum is supported through good and outstanding teaching (Ofsted 2014) and students are monitored carefully to ensure that they are on track to achieve their target grades. The Sixth Form prides itself on the outstanding support and guidance it provides through its well-managed student welfare system. Each student has a personal tutor who provides dedicated support during the twice daily tutor time. Tutor groups are seen as extended families and tutors willingly devote their non-teaching time to mentor and counsel our students.

Our enrichment programme provides opportunities for our students to enhance their learning outside the classroom. We run a variety of enrichment courses, with several of these leading to nationally recognised qualifications.

Students are able to engage in many extra-curricular activities including opportunities to develop leadership, management and team working skills. This enables them to become mature and confident individuals increasingly self-motivated and focussed on working independently. Many students complete work placements as part of their course and every Sixth Former is offered the opportunity to engage in work experience to develop their employability skills.

Our Sixth Formers are provided with personalised careers guidance through the tutorial system and individual interviews. Our CEIAG Manager provides an excellent service of careers guidance and advice to our students as well as finding high quality placements for those who are required or wish to do work experience.

A rigorous process for preparation of UCAS applications has resulted in 100% of applicants gaining university places in the last five years. We support and encourage our students to attend university open days and ensure that they have a clear understanding of the financial implications in gaining a degree.

Our Sixth Form team are committed professionals who give effective support and guidance to our students. The Sixth Form Learning Area provides an engaging environment for private study which is supervised by one of the Sixth Form staff. All students are also provided with a laptop so that they can access our VLE.

In addition, access to gain the Extended Project and IFS qualifications is available.

Further information is available on our website: www.hwga.org.uk, by email enquiry@hwga.org.uk, by telephone 0121 554 8122 or by attending our Sixth Form Open Evening. Key dates for the application process may be found on our website.
The School:
King Edward VI Aston School for Boys is renowned for its friendly and relaxed atmosphere, which is based on the sound discipline and high standards the school expects and gets from its students.
We aim to educate and prepare for life, able young men from all backgrounds.

Our pursuit of excellence allows students to reach the highest possible academic, sporting, cultural and aesthetic standards. Young enquiring minds are stretched by lively lessons where information, discussion and challenge are the order of the day.

Students are encouraged to take responsibility for their own learning and there is excellent rapport between students and their teachers.

40% of our sixth form students join us from other schools and go on to achieve academic success. Our students are our greatest priority and asset and the school's efforts are focused on providing the very best opportunities for their all-round development.

By the age of eighteen we expect all our students to be articulate, well-educated young men, capable of independent thought and with the confidence to face future challenges.

We expect all students leaving the school to know the value of integrity and the importance of tolerance.

85% of our students go on to university.

How to apply:
Download a copy of our application from the website or apply via UCAS Progress.

Our Sixth Form provides:
• A tradition of academic excellence.
• High standards and expectations.
• A friendly and supportive atmosphere.
• An extremely effective pastoral and guidance system ethos which enables the vast majority of our students to go on to study at leading universities.
• An exceptional extra-curricular programme which encourages leadership, teamwork and problem solving.

Entry Requirements:
The minimum requirements for entry into Aston’s Sixth Form are:
• Seven GCSE A* - C grades, three at A*/A Grade including at least grade B in English Language and Mathematics.
• In order to study a subject at A level, a student must have attained GCSE grade A* or A.
• In subjects only offered at A level, the department will select the most appropriate GCSE subject in which the student will be expected to achieve an A*/A grade.

Students progressing from Y12 to Y13 are expected to achieve a minimum of 3 C grades in the end of Year 12 examinations.

For further information, go to the school website on: www.keaston.bham.sch.uk

Our 2016 Open Evening takes place on Tuesday 15th November from 5.30-8.00pm.
Aston University

Built in 1895 and a university since 1966, Aston University is an established university known for world class teaching and research and a graduate employment record that is consistently amongst the UK’s best. Aston has strong links with industry, business and the health professions which helps ensure our courses are relevant and our graduates highly employable.

The majority of our students choose to take a placement year or year abroad as an integrated part of their course, gaining valuable experience of the professional world and making them particularly attractive to employers. The value of an Aston University degree and the experience of a placement year are underpinned by our consistently high graduate employment record. For over 20 years Aston has been a leading university for graduate employability. The Sunday Times University Guide 2013 ranked Aston 8th out of all UK universities for graduate level employment success.

Aston University is divided into four academic Schools of Study: Aston Business School; School of Engineering & Applied Science; School of Languages & Social Sciences; School of Life & Health Sciences.

We are committed to “Global Citizenship”: we encourage all our students to take advantage of our free language tuition. Sustainability is a key theme for our environment, our teaching and our research, and we make the most of the wide range of experiences and cultures in our diverse campus community.

All of the University's academic, social and accommodation facilities are based on our attractive, self-contained, green campus right in the centre of Birmingham. We are proud of our close-knit, safe and friendly campus atmosphere which provides the perfect environment for academic success and a fantastic social life.

Birmingham City University

Study with us for a bright future

Birmingham City University has around 23,500 students from over 80 countries, making it one of the largest and liveliest institutions in the West Midlands region. The University enjoys almost 40 professional accreditations and a large number of successful industry partnerships.

Our commitment to developing graduates with the skills and experience employers need means that 94 per cent of UK undergraduate students were in employment or further study within six months of graduating. (DLHE survey 2014/15).

Partnering business & industry
All of our courses have a strong focus on preparing you for the world of work, with many offering the option of a four-year ‘sandwich’ mode, with a full year in industry providing valuable work experience. Our teaching staff come from and maintain their links with industry, ensuring you are given an insight into the latest thinking. We even give you the chance to gain work experience in real roles around the University, through our pioneering student employment agency, OpportUNIty – Student Jobs on Campus.

Investing in your future
We are mid-way through a £260 million investment programme in our estates and facilities, including our new Curzon Building, opened in 2015, which houses business, law, social science and English courses as well as new library, IT and student support facilities. A third phase of development, including a new home for our Conservatoire and additional teaching space at our City Centre and City South campuses, will follow in 2017.

A growing reputation for research
The work undertaken by our research staff and research students is not only enriching our courses, it is literally shaping the world. In the Research Excellence Framework 2014, which measures universities’ research performance, 90 per cent of Birmingham City University's total submission was judged to have delivered ‘outstanding’ or ‘very considerable’ impact externally.

Choose your future!
Dear Student,
If you choose to study within our area you will be based at one of the schools or colleges, and may have the opportunity to study at another site too. As well as continuing to learn with the friends you have made in your school up to now, you will also be able to make new friends, and to try new experiences and enrichment opportunities at other places. Our focus is on your learning as you fulfil your potential in the subject areas you have chosen, but as a Post 16 student you will be interested in much more than just studying. You will be able to take part in:
Outdoor activities; performances – music, drama and dance; sports; university trips; mentoring; leadership opportunities and visits.

As you make decisions about your future, you will be supported to apply for jobs, advanced or higher apprenticeships, university or training; we will provide advice, and encourage you to make the most of all the opportunities available, while enjoying your time in the 6th form. We also work with businesses to arrange many opportunities for taster courses in employment and industry.

• Get an application form from your Head of Sixth Form or Head of Year 11, or via the college website.
• Attend the Post 16 Open Days and Evenings.
• Complete your sections of the form.
• Give the form to your contact in school (usually your Head of Year or House).
• Attend your interview.
