### 1. INTRODUCTION

The **IOT Solutions World Congress** is the only event featuring demonstrations of Industrial IoT, Blockchain and Artificial Intelligence (AI). The testbeds are strategically placed in our exhibition floor giving our attendees the opportunity to experience never-before-seen IoT, Blockchain and AI & Cognitive Systems in action.

**Be one of the 10 selected to showcase your Testbed at the 2019 edition of the IOT Solutions World Congress!**

## 2. PARTICIPATION RULES

The Call for Testbeds welcomes all submissions, however:

Testbed space is complimentary if chosen. Incidental costs such as electricity, shipping, furniture, internet and others will be the responsibility of the testbed submitter(s).

There will be **10 selected Testbeds** to be showcased at the 2019 edition.

### HOW TO PARTICIPATE

Testbeds proposals can be submitted via an **online form** that you will find in the Testbeds section at [www.iotsworldcongress.com](http://www.iotsworldcongress.com) by **30 April 2019**.

## 3. TIMELINE

- **Submission:** Participation form must be submitted by 30 April 2019.
- **Evaluation:** All submissions will first be reviewed by the Jury to ensure submission criteria is correct by 20 June 2019.
- **Pre-selected testbeds and renders:** After the first evaluation, the Jury will select (15) pre-selected testbeds that will be notified. All pre-selected testbeds must send a render of their proposed staging by 15 June 2019 to be revised by the organization and jury.

**Notification:** All the participants will be notified of their acceptance or rejection between **20 June and 5 July, 2019**.

## 4. EVALUATION CRITERIA

For each submission, the jury will score the following questions/criteria from 1 to 5:

- Degree of innovation.
- Impact for industry / society: does it represent an incremental change to the past or is it a whole new way of doing business?
- Scalability of the testbed: is the concept applicable across multiple industries or is it very niche?
- Increased visual effect from the staging.
- If the Testbed has been in existence for some time, has it published meaningful results? Has it delivered “new knowledge” for industry? Something creative and really impactful?

## 5. PREPARATION FOR THE TESTBED EXHIBITION

For preparation of your Testbed, we will send you the contact details of our production and logistical department, in order to confirm your technical requirements for the testbed.
