

Fire & Security Engineer - Guernsey

AFM are currently looking to recruit a **Fire & Security Engineer** to join our busy Fire & Security Division in Guernsey.

The role will predominately involve working in commercial and industrial environments; however there is also an element of domestic work.

Key activity of the division/role includes;

- Fault finding and diagnostics
- Installation works (new installs/refurbishments)
- Reactive response
- Planned preventative maintenance
- Maintenance defect repairs

The type of systems to be worked on include;

- Fire alarm/detection systems
- Fire Extinguishing and Suppression Systems
- Security
 - Intruder Alarm Systems
 - CCTV
 - Access Systems
- Nurse Call
- Leak Detection
- Emergency Lighting
- Monitoring systems

This role would suit an engineer who possesses recognised qualifications in the Fire & Security industry and applicants must have the ability to work both unsupervised and as part of a team.

Additional info for this role:

- This is a full time position.
- A driving licence is essential.
- Occasional call out works will be required.
- Due to the nature of the work the successful applicant will be required to undertake a full police disclosure.

If you would like to find out more information about this role, please contact our Human Resources team on 01481252111 or forward your CV to: *Human Resources, Amalgamated Facilities Management Ltd, PO Box 595, Garenne Park, Rue de la Cache, St Sampson's, Guernsey, GY1 6ND* or by email to: ***hr@amalgamatedfm.com***
