

Job Details – 01/02/2019

Electrical Compliance Engineer - Guernsey

AFM are currently looking to recruit an **Electrical Compliance Engineer** to join our active Electrical Division in Guernsey.

The role will predominately involve working in commercial and industrial environments; however there is also an element of domestic works.

Covering a wide range of electrical systems, key activity of the role include;

- Planned preventative maintenance and reporting;
 - Distribution Board Checks
 - Thermal imaging
- Testing and inspection
- Maintenance defect repairs
- Fault finding and diagnostics
- Reactive response

This role would suit a qualified electrician and applicants must have the ability to work both unsupervised and as part of a team.

Qualifications

Essential

Appropriate electrical qualifications to 17th Edition

Desirable

18th Edition electrical qualifications

Electrical Testing and Inspection qualifications

Computer literate (Word/Excel/technical software packages)

Additional info for this role:

- This is a full time position.
- A driving licence is essential.
- Occasional call out works will be required.
- Due to the nature of the work the successful applicant will be required to undertake a full police disclosure.
