STAND ALONE SOLUTIONS

1000

Keypad and Mifare reader for Stand Alone

- Up to 190 user codes/tags
- Changeable and/or function for high security
- All settings can be copied to other CM1000 readers with a backup card (Art. 480080)
- 2 outputs (500 mA) for codes/tags
- REX input
- Programmable LED and buzzer
- 8 core 2.5 m cable
- IP67 protection rate for indoor and outdoor use
- Voltage 9 – 25 V DC
- HxLxW (Mykey): 75x50x8 mm.
- HxLxW (Classic): 130x50x8 mm.
- Customised front labels

480010 CM1000 black, Mykey
480011 CM1000 white, Mykey
482010 CM1000 black, Classic
482011 CM1000 white, Classic

Keypad and Proximity reader for Stand Alone

- Atmel and EM compatible
- Up to 190 user codes/tags
- Changeable and/or function for high security
- Permanent codes, single use codes and 24 hour codes
- 2 outputs (500 mA) for codes/tags
- REX input
- Programmable LED and buzzer
- 8 core 2.5 m cable
- IP67 protection rate for indoor and outdoor use
- Voltage 9 – 25 V DC
- HxLxW (Mykey): 75x50x8 mm.
- HxLxW (Classic): 130x50x8 mm.
- Customised front labels

480015 CP1000 black, Mykey
480016 CP1000 white, Mykey
482015 CP1000 black, Classic
482016 CP1000 white, Classic

Keypad and bluetooth reader for Stand Alone

- For mobile phones and Bluetooth tags
- Up to 512 user codes/tags
- Adjustable range detection
- Delivered with Conlan Wiegand Controller (Art. 460116)
- REX input
- Programmable LED and buzzer
- 8 core 2.5 m cable
- IP67 protection rate for indoor and outdoor use
- Voltage 9 – 42 V DC
- HxLxW (Mykey): 75x50x8 mm.
- HxLxW (Classic): 130x50x8 mm.
- Customised front labels

480030 CB1000 black, Mykey
480031 CB1000 white, Mykey
482030 CB1000 black, Classic
482031 CB1000 white, Classic

Mifare reader for Stand Alone

- Up to 80 users
- Master transponder for programming users and settings
- Delete individual transponders
- All settings can be copied to other M1000 readers with a backup card (Art. 480081)
- 2 outputs (500 mA)
- IP67 protection rate, for indoor and outdoor use
- REX input
- Voltage: 9 – 42 V DC
- 8 core 2.5 m cable
- HxWxL: 50x50x8 mm.
- Customised front labels

480060 M1000 black
480061 M1000 white

Fingerprint reader for Stand Alone

- Up to 60 users
- Program by master finger
- Display to navigate the configuration menu
- Able to enroll 2nd master
- 2 output (500mA)
- REX input
- All users can be configured to pulse (1-60sec) or toogle any of the outputs
- IP67 protection rate for indoor and outdoor use
- Voltage 9-25 volts DC
- HxLxWx: 45x45x10mm
- Output can be changed to Wiegand

480050 FP1000

Keypad for Stand Alone

- Up to 28 user codes
- 2 outputs (500 mA) for codes and bell
- REX input
- Programmable LED and buzzer
- Voltage: 9 – 25 V DC
- 8 core 2.5 m cable
- IP67 protection rate for indoor and outdoor use
- HxWxL: 130x50x8 mm.
- Customised front labels

460100 CT1000 black
460106 CT1000 white

Proximity reader for Stand Alone, Atmel

- Reader for Atmel transponder
- Up to 1024 user transponders
- Master and user transponders enrolled on site
- Delete individual transponders
- 1 output (500 mA)
- Programmable LED and buzzer
- REX input
- Voltage: 9 – 17 V DC
- 8 core 2.5 m cable
- IP67 protection rate for indoor and outdoor use
- HxWxL: 130x50x8 mm.
- Customised front labels

460101 PR1000ATM black
460107 PR1000ATM white

Proximity reader for Stand Alone, EM

- Reader for EM transponder
- Up to 1024 user transponders
- Master and user transponders enrolled on site
- Delete individual transponders
- 1 output (500 mA)
- Programmable LED and buzzer
- Rex input
- Voltage: 9 – 17 V DC
- 8 core 2.5 m cable
- IP67 protection rate for indoor and outdoor use
- HxWxL: 130x50x8 mm.
- Customised front labels

460108 PR1000EM black
460109 PR1000EM white

Fingerprint reader for Stand Alone

- Up to 1000 users
- New touch sensor
- Program by masterfinger
- Delete individual fingers
- 1 relay output (500 mA)
- IP67 protection rate for indoor and outdoor use
- Voltage: 9 – 17 V DC
- 8 core 2.5 m cable
- HxWxL (reader): 90x75x30 mm.
- HxLxW: (controller): 88.5x65x30 mm.
- Also for networking and Wiegand

460190 BTH1000

Fingerprint reader for Stand Alone with converter

Same as BTH1000 (Art. 460190), but with a converter instead of a standard controller.

460191 BTH1000NO

WIEGAND SOLUTIONS

1200

Keypad and Mifare reader for Wiegand

- Adjustable bit settings
- Singlekey and mastermode
- Setup on site for all Wiegand communication
- Programmable LED and buzzer
- 2 outputs (D0 and D1)
- IP67 protection rate for indoor and outdoor use
- Voltage 9 – 25 V DC
- 8 core 2.5 m cable
- HxLxW (Mykey): 75x50x8 mm.
- HxLxW (Classic): 130x50x8 mm.
- Customised front labels
- Compatible with e.g. Conlan Wiegand controller

490010 CM1200 black, Mykey
490011 CM1200 white, Mykey
492010 CM1200 black, Classic
492011 CM1200 white, Classic

Keypad and Proximity reader for Wiegand

- Atmel and Emarine compatible
- Adjustable bit settings
- Singlekey and mastermode
- Setup on site for all Wiegand communication
- Programmable LED and buzzer
- 2 outputs (D0 and D1)
- IP67 protection rate for indoor and outdoor use
- Voltage 9 – 25 V DC
- 8 core 2.5 m cable
- HxLxW (Mykey): 75x50x8 mm.
- HxLxW (Classic): 130x50x8 mm.
- Customised front labels
- Compatible with e.g. Conlan Wiegand controller

490015 CP1200 black, Mykey
490016 CP1200 white, Mykey
492015 CP1200 black, Classic
492016 CP1200 white, Classic

Keypad and Bluetooth reader for Wiegand

- For mobile phones and Bluetooth tags
- Classic and low energy Bluetooth
- Adjustable bit settings
- Adjustable range detection
- Set up on site for all Wiegand communication
- Programmable LED and buzzer
- 2 outputs (D0 and D1)
- IP67 protection rate for indoor and outdoor use
- Voltage: 9 – 42 V DC
- 8 core 2.5 m cable
- HxLxW (Mykey): 75x50x8 mm.
- HxLxW (Classic): 130x50x8 mm.
- Customised front labels
- Compatible with e.g. Conlan Wiegand controller

490030 CB1200 black, Mykey
490031 CB1200 white, Mykey
492030 CB1200 black, Classic
492031 CB1200 white, Classic

Mifare reader for Wiegand

- Adjustable bit settings
- Set up on site for all Wiegand communication
- Programmable LED and buzzer
- 2 outputs (D0 and D1)
- IP67 protection rate for indoor and outdoor use
- Voltage: 9 – 42 V DC
- 8 core 2.5 m cable
- HxLxW: 50x50x8 mm.
- Customised front labels
- Compatible with e.g Conlan Wiegand controller

490060 M1200 black
490061 M1200 white

Proximity reader for Wiegand

- Atmel and Emarine compatible
- Adjustable bit settings
- Set up on site for all Wiegand communications
- Programmable LED and buzzer
- 2 outputs (D0 and D1)
- IP67 protection rate for indoor and outdoor use
- Voltage: 9 – 42 V DC
- 8 core 2.5 m cable
- HxLxW: 50x50x8 mm.
- Customised front labels
- Compatible with e.g Conlan Wiegand controller
-

490070 P1200 black
490071 P1200 white

Fingerprint reader for Wiegand

- Up to 60 users
- Program by master finger
- Display to navigate the configuration menu
- Wiegand 26 output
- Able to enroll 2nd master
- IP67 protection rate for indoor and outdoor use
- Voltage 9-24 volts DC
- HxLxWx: 45x45x10mm
- Wiegand out can be converted to OC output

490050 FP1200

Keypad for Wiegand

- 26/8/4 bits
- 26 bits for codes and 8/4 bits for each digit
- Set up on site
- Programmable LED and buzzer
- 2 outputs (D0 and D1)
- IP67 protection rate, for indoor and outdoor use
- Voltage: 9-27 V DC
- 8 core 2.5 m cable
- HxLxW: 130x50x8 mm.
- Customised front labels
- Compatible with e.g. Conlan Wiegand controller

460110 CT1200 black
460112 CT1200 white

Proximity reader for Wiegand, Atmel

- Reader for Atmel transponder
- 26 bits
- Programmable LED and buzzer
- 2 outputs (D0 and D1)
- IP67 protection rate, for indoor and outdoor use
- Voltage: 9-17 V DC
- 8 core 2.5 m cable
- HxWxL: 130x50x8 mm.
- Customised front labels
- Compatible with e.g. Conlan Wiegand controller

460111 PR1200ATM black
460114 PR1200ATM white

Proximity reader for Wiegand, EM

- Reader for EM transponder
- 26 bits
- Programmable LED and buzzer
- 2 outputs (D0 and D1)
- IP67 protection rate for indoor and outdoor use
- Voltage: 9-17 V DC
- 8 core 2.5 m cable
- HxWxL: 130x50x8 mm.
- Customised front labels
- Compatible with e.g. Conlan Wiegand controller

460121 PR1200EM black
460122 PR1200EM white

Wiegand controller, 26 bits

- For 1 door with in and out reader
- 512 users
- Program on site by PC
- Attach name and notes to each user
- Door switch and REX switch
- 2 relays for door and alarm
- RS232 communication protocol for PC and RS485 for network
- Built in log function (real time) for 3500 logs
- Wiegand SQL and Delfi software, 32/64 bits
- Voltage: 12 V DC
- HxLxW: 88.5x65x30 mm.

460116 Wiegand Controller

Fingerprint reader for Wiegand/OC/485 communications

Same as BTH1000 (Art. No.: 460190) plus the following functions:

- Wiegand 26 output for integration to access control installations or connection to Conlan's Wiegand controller
- HxLxW (reader): 90x75x30 mm.
- HxLxW: control box): 88.5x65x30 mm.

CONLAN 485 SOLUTIONS

2000

Keypad Conlan 485 Protocol SK 3

- Up to 100 user codes (divided in max. 12 groups)
- Program on site with service code or by PC
- Programmable LED and buzzer
- 1 output (500 mA)
- IP67 protection rate for indoor and outdoor use
- Voltage: 9 – 27 V DC
- 8 core 4 m cable
- HxWxL: 130x50x8 mm.
- Customised front labels
- Sabotage switch

460001 CT2000 SK. 3 black
460014 CT2000 SK. 3 white

Keypad Conlan 485 Protocol

- Up to 100 user codes (divided in max. 12 groups)
- Program on site with service code or by PC
- Programmable LED and buzzer
- 1 output (500 mA)
- IP67 protection rate for indoor and outdoor use
- Voltage: 9 – 27 V DC
- 8 core 4 m cable
- HxWxL: 130x50x8 mm.
- Customised front labels

460005 CT2000 black
460007 CT2000 white

Keypad Conlan 485 Protocol LED

- Up to 100 user codes (divided in max. 12 groups)
- Program on site with service code or by PC
- Programmable LED and buzzer
- 1 output (500 mA)
- IP67 protection rate for indoor and outdoor use
- Voltage: 9 – 27 V DC
- 12 core 4 m cable
- HxWxL: 130x50x8 mm.
- Customised front labels
- Sabotage switch
- Possible to control LED and buzzer via 0V

460070 CT2000 LED black
460071 CT2000 LED white

Proximity reader Conlan 485 Protocol

- For Atmel transponder
- Up to 100 users (divided in max. 12 groups)
- Program on site by master transponder (Art. 460012) or by PC
- Programmable LED and buzzer
- Sabotage switch
- 1 output (500 mA)
- IP67 protection rate for indoor and outdoor use
- Voltage: 9 – 17 V DC
- 8 core 4 m cable
- HxWxL: 130x50x8 mm.
- Customised front labels

460002 PR2000 black
460015 PR2000 white

Proximity reader Conlan 485 Protocol LED

- For Atmel transponder
- Up to 100 users (divided in max. 12 groups)
- Program on site by master transponder (Art. 460012) or by PC
- Programmable LED and buzzer
- Sabotage switch
- 1 output (500 mA)
- IP67 protection rate for indoor and outdoor use
- Voltage: 9 – 15 V DC
- 12 core 4 m cable
- HxWxL: 130x50x8 mm.
- Customised front labels
- Possible to control LED and buzzer via 0V

460074 PR2000 LED black
460076 PR2000 LED white

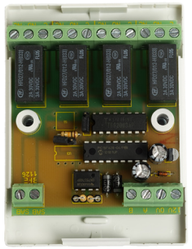

Fingerprint reader for Wiegand/OC/485 communication

Same as BTH1000 (Art. 460190) plus the following functions:

- Wiegand 26 output for integration to access control
- Installations or connection to Conlan's Wiegand controller
- HxLxW (reader): 90x75x30 mm.
- HxLxW: control box): 88.5x65x30 mm.

460194 BTO2000

Fingerprint 4 relays module for BTO2000

- Each relay can be allocated to a group of fingers
- The relays can start in 5-30 seconds or on/off
- The relay box can be set up for higher security (the 4-eyes principle)

460186 FP 4 relay for BTO2000

Door control unit 485-T

- Up to 32 time profiles
- Relay output for door and open collector for alarm/monitor
- Programmed with LogBox3 (Art. 460017) or with PC Interface (Art. 460010)
- REX switch
- Forced open/toggle
- Use with CT2000/PR2000
- HxLxW: 88,5x65x30 mm.

460004 Box 485-T

Extension unit 485-4

- Door control unit – extension unit
- 4 relays (C-NO-NC)
- Operate from 2 readers (user groups are allocated to specific relays)
- Each group can be freely assigned to either relay
- Keypad/prox activates the relay(s)
- Can control multiple doors
- Use with CT2000 or PR2000
- HxWxL: 88,5x65x30 mm.

460006 Box 485-4

LogBox 3, incl. software (ConLan eXPress)

- Log and PC interface integrated function
- Interface and logbox for programming and event registration
- Up to 10.000 logs
- Communicates on RS485 bus with all other 2000 products
- Software for programming/logging/reporting
- Cable for PC and bus
- Optional plug and/or screw connections
- HxWxL: 88,5x65x30 mm.

460017 LogBox3

PC Interface, incl. software (Conlan eXPress)

- Conlan eXPress software for programming all products in the series (except BioTag Office and FP 4 module)
- Compatible with Windows 98/XP/Vista/7
- Can communicate via MSDOS

460010 PCI2000

Master transponder

- Programmed by a unique code
- Program by PC
- Set up 2 groups (of transponders/users)
- Delete/cancel transponders

460012 Master Transponder

Lockable address module 485

- Output (500 mA)
- Input from door and REX swich
- Stand alone or PC programming
- Output for each code/bell (500 mA)
- Up to 50 outputs/readers

460016 LA I/O 485

CONLAN
secure open

OPEN PROTOCOL 485

SOLUTIONS

3001

Keypad and mifare reader open protocol 485

- 2 Inputs (0V active)
- 2 outputs (500 mA)
- Voltage: 9 – 27 V DC
- 8 core 2.5 m cable
- HxLxW: 75x50x8 mm.
- IP67 protection rate for indoor and outdoor use
- Customised front labels
- Test program and Front End software for system integration

510010 CM3001 black
510011 CM3001 white

Keypad open protocol 485

- 2 inputs (0V active)
- 2 outputs (500 mA)
- Voltage: 9 – 27 V DC
- 8 core 2.5 m cable
- HxLxW: 130x50x8 mm.
- IP67 protection rate for indoor and outdoor use
- Test program and Front End software for system integration

460500 CT3001 black
460504 CT3001 white

Proximity reader open protocol 485, EM

- Compatible with EM transponders
- 2 inputs (0V active)
- 2 outputs (500 mA)
- Voltage: 9 – 17 V DC
- 8 core 2.5 m cable
- HxLxW: 130x50x8 mm.
- IP67 protection rate for indoor and outdoor use
- Test program and Front End software for system integration

460502 PR3001EM black
460506 PR3001EM white

Proximity reader open protocol 485, Atmel

- Compatible with Atmel transponders
- 2 inputs (0V active)
- 2 outputs (500 mA)
- Voltage: 9 – 17 V DC
- 8 core 2.5 m cable
- HxLxW: 130x50x8 mm.
- IP67 protection rate for indoor and outdoor use
- Test program and Front End software for system integration

460501 PR3001ATM black
460507 PR3001ATM white

Display for open protocol 485

- For customised user messages and/or instructions
- Compatible with all 3001 readers
- HxLxW: 50x50x8 mm.
- IP67 protection rate for indoor and outdoor use

510080 Display 485

PC-Interface

- Connects the 485 network with computer or LAN
- Compatible with Wiegand
- 1,5 m cable for PC connection
- HxLxW: 88,5x65x30 mm

460184 PCI3000

CONLAN

OPEN PROTOCOL OSDP 485

SOLUTIONS

3002

Keypad and Mifare reader for OSDP 485

- 2 Inputs (0V active)
- 2 outputs (500 mA)
- Voltage: 9 – 27 V DC
- 8 core 2.5 m cable
- HxLxW: 75x50x8 mm.
- IP67 protection rate for indoor and outdoor use
- Customised front labels
- OSDP open or encrypted

520010 CM3002 black, Mykey
520011 CM3002 white, Mykey
522010 CM3002 black, Classic
522011 CM3002 white, Classic

Keypad and Proximity reader for OSDP 485

- 2 inputs (0V active)
- 2 outputs (500 mA)
- Voltage: 9 – 27 V DC
- 8 core 2.5 m cable
- HxLxW: 130x50x8 mm.
- IP67 protection rate for indoor and outdoor use
- OSDP open or encrypted

520015 CP3002 black, Mykey
520016 CP3002 white, Mykey
522015 CP3002 black, Classic
522016 CP3002white, Classic

Mifare reader for OSDP 485

- 2 inputs (0V active)
- 2 outputs (500 mA)
- Voltage: 9 – 17 V DC
- 8 core 2.5 m cable
- HxLxW: 130x50x8 mm.
- IP67 protection rate for indoor and outdoor use
- OSDP open or encrypted

520060 M3002 black
520061 M3002 white

Proximity reader for OSDP 485

- Compatible with EM and Atmel transponders
- 2 inputs (0V active)
- 2 outputs (500 mA)
- Voltage: 9 – 17 V DC
- 8 core 2.5 m cable
- HxLxW: 130x50x8 mm.
- IP67 protection rate for indoor and outdoor use
- OSDP open or encrypted

520078 P3002 black
520071 P3002 white

Display for OSDP 485

- For customised user messages and/or instructions
- Compatible with all 3002 readers
- HxLxW: 50x50x8 mm.
- IP67 protection rate for indoor and outdoor use

ACCESSORIES

Cards and transponders	35
Frames and labels	40
Power supplies	45
Relays	48
Assembly boxes, converters and rectifiers	51
Strikes and locks	56
LAN boxes and USB converters	57

Transponder, 125 kHz Atmel

- Waterproof and robust design
- Key chain
- Standard color: black. Available in more colors on request
- Sold in packs of 10 or 100

460003 TRblack Atmel 10
461001 TRblack Atmel 100

Transponder, 125 kHz EM

- Waterproof and robust design
- Key chain
- Standard color: black. Available in more colors on request
- Sold in packs of 10 or 100

461020 TRblack EM 10
461002 TRblack EM 100

Atmel card

- Credit card format

460103 Card ATM

EM card

- Credit card format

460115 Card EM

Cloning card for CM1000

- Credit card format

480080 Cloning card

Cloning card for M1000

- Credit card format

480081 Cloning card

EM tag

- Key tag drop shape
- Epoxy
- Sold in packs of 10 or 100

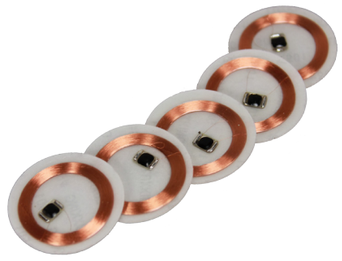

461010 EM tag 10
461003 EM tag 100

Mifare tag 1k

- Key tag drop shape
- Epoxy
- Sold in packs of 10 or 100

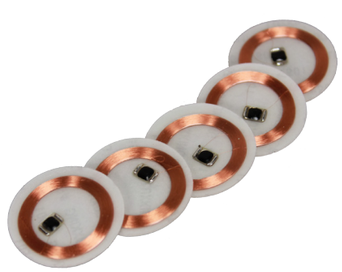

461011 Mifare tag 10
461004 Mifare tag 100

EM open tag

- Adhesive
- 25 x 1 mm.
- Sold in packs of 10 or 100

461050 EM open tag 10
461005 EM open tag 100

Mifare 1k open tag

- Adhesive
- 25 x 1 mm
- Sold in packs of 10 or 100

461051 Mifare open tag 10
461006 Mifare open tag 100

Mounting plate, 2mm stainless steel

- Delivered with screws for reader and wall
- Used for mounting on uneven surfaces

460081 Mounting plate

Frame for Conlan readers, Classic design

460030 Frame white
460035 Frame anthracite grey
460039 Frame silver
460040 Frame with LED

Spy proof cover for Conlan readers, Classic design

- Stainless steel

460079 Frame for keypad

Frame for fingerprint reader BTH and BTO

- Stainless steel
- Direct mounting without screws

460080 Fingerprint frame

Frame for Conlan readers, Mykey design

- For outdoor use
- Resistant to sunlight
- Antracite grey

480020 Mykey frame

Labels for PR proximity readers

- Extra front labels (5 pcs set)

460023 PR Labels black
460026 PR Labels white

Labels for CT keypads

- Extra front labels (5 pcs set)

460021 CT Labels black
460025 CT Labels white

Customised labels (min. 100 pcs.)

- For Mykey or Classic design
- Your own logo, contact data, etc.
- Your preferred colour

460022 OEM-CT label
460024 OEM-PR label

Labels for Mykey 1 1/2 module

- Extra front labels (5 pcs set)

480021 Mykey labels black
480025 Mykey labels white

Labels for Mykey 1 module

- Extra front labels (5 pcs set)

480023 Mykey labels black
480026 Mykey labels white

Power supply 24 V / 0.75 A switch mode 700 m DIN
Power supply 12 V / 2 A switch mode 700 m DIN

- IP67 protection rate for indoor and outdoor use
- DIN rail or direct wall mounting
- Conneting cable for 230 V AC and 12/24 V DC (brown and blue indication)

460037 PS24/0.75
460041 PS12/2

Power supply 12 V / 0.5 A switch mode 350 m DIN

- IP67 protection rate for indoor and outdoor use
- DIN rail or direct wall mounting
- Conneting cable for 230 V AC and 12 V DC (brown and blue indication)

460048 PS12/0.5
460044 PS12/0.5 with connectors + and –

NB: Art. 460044 is not encapsulated!

Connecting cable for 230 V AC and 12 V DC

- Suitable for ITV and similar tasks

460050 PS12/5.42

Power supply 13.8 V / 1 A

- Power supply with charger
- In metal box with room for a 7.2 Ah battery
- Fuse in circuit and output
- LED shows status
- Adjustable voltage
- HxLxW: 205x237x81 mm

460042 PS13.8/1

Accu 12 V

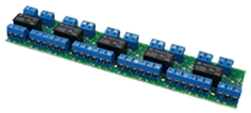

- Backup battery for power supply
- HxLxW: 97x43x52 mm eller
- HxLxW: 150x92x65 mm

460044 Accu 12V/1.3Ah
460045 Accu 12V/7.2Ah

Adaptor 12 V / 0.5 A switch mode
Adaptor 12 V / 2 A switch mode
Adaptor 24 V / 0.75 A switch mode

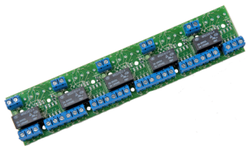

460049 Adaptor 12/0.5
460043 Adaptor 12/2
460036 Adaptor 24/0.75

Relay board with double switch contact C-NC-NO

- Voltage: 12/24 V DC / 3 A
- LED for relay status
- Activates to +/- <1 mA
- HxL: 38x35 mm
- 3 adhesive mounting feet
- Sold in bars of 5 pieces
- Activates from TTL level with transistor inputs
- Suitable for output/potential free relay

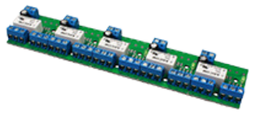

460151 RPT0

Relay board with double switch contact C-NC-NO

- Voltage: 12/24 V DC / 3 A
- LED for relay status
- HxL: 38x35 mm
- 3 adhesive mounting feet
- Sold in bars of 5 pieces
- Suitable for output/potential free relay

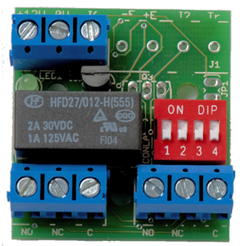

460150 RP0

Relay board with AC/DC converter

- Voltage: 9 – 27 V AC/DC
- 2 relay outputs (C-NC-NO)
- HxL: 38x35 mm
- 3 adhesive mounting feet
- Sold in bars of 5 pieces

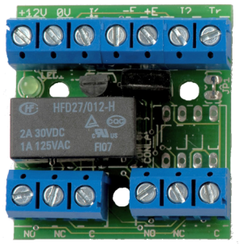

460153 RP AC/DC

Relay board with timer (5 functions)

- Voltage: 12/24 V DC
- +/- input automatic configuration
- Relay output with double contact C-NC-NO
- Programmable on site (DIP): pulse extension, alarm time limitation, arming delay, pulse generator and pulse delay
- Time: From 0.3 to 360 seconds
- HxL: 38x35 mm
- 3 adhesive mounting feet
- Suitable for time delay on doors, safes etc.

460154 RPT-TI

Relay board with flip-flop, open collector

- Voltage: 12/24 V DC
- +/- input automatic configuration
- Relay 2X (C-NC-NO) (for alarm)
- Output open collector, 500 mA
- Input for reaction in the relay or open collector
- Input 2 (set) functions on the open collector, or (unset) on relay
- HxL: 38x35 mm
- 3 adhesive mounting feet
- Used for arming/disarming alarm systems and door openings

460152 RPTX

On/off arming/disarming electronic blockschloss

- Complies with German VdS regulations
- Relay with double pole switch C-NC-NO to/from arming/disarming for extra lock
- Input from Conlan readers
- Buzzer
- Suitable for readiness check before connecting and confirmation of connection

460032 RPT2

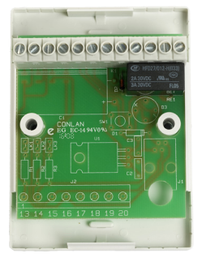

Simple mounting box

- Up to 1 CVT board or relay board
- HxLxW: 88.5x65x31 mm

- Up to 2 CVT boards or relay boards
- HxLxW: 131.5x88.5x31 mm

- Used as assembly boxes for circuit boards or similar

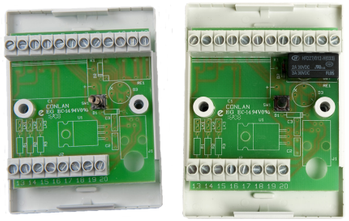

460084 VTG1
460082 VTG2

CVT0 - 12 connectors

- Relay C-NC-NO
- 6 free connectors
- HxLxW: 88.5x65x31 mm
- Used as assembly box with relay output

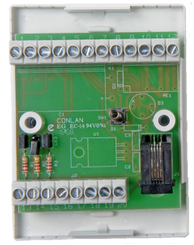

460097 CVT0

CVT1 – sabotage/18 free connectors CVT1r with relay

- Sabotage swich
- 18 free connectors
- HxLxW: 88.5x65x31 mm
- Used as assembly box with/without relay

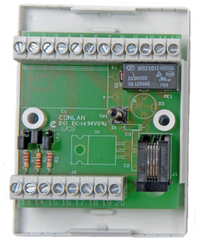

460085 CVT1
460085r CVT1r

CVT2 Sabotage/bus/RJ10

- Sabotage switch
- Connection to bus via RJ11 or by connectors
- 10 free connectors
- Relay C-NC-NO
- HxLxW: 88.5x65x31 mm
- Used as assembly box to connect to a PC/PC interface or LogBox3

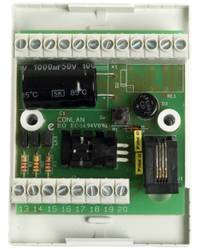

460086 CVT2

CVT3 Bus/relay/assembly box

- Sabotage switch
- Connection to bus via RJ11 or by connectors
- 6 free connectors
- Relay C-NC-NO
- HxLxW: 88.5x65x32 mm
- Similar to Art. No.: 460086, with relay output

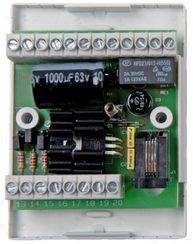

460089 CVT3

CVT4/NT Sabotage/bus/RJ10/AC-DC

- Voltage: 12/24 V DC to 12 V DC, 100 mA
- 8 free connectors
- HxLxW: 88.5x65x31 mm
- Used as converter and assembly box for 2000 installations, and where there is an inter phone installation
- Distributor used as bus connection and power supply

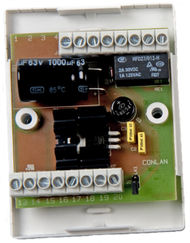

460087 CVT4

CVT5/relay Sabotage/bus/RJ10/AC-DC

- Similar to Art. 460087, with relay
- Voltage: 12/24 V AC to 12 V DC, 100 mA
- 4 free connectors
- HxLxW: 88.5x65x31 mm
- Used as converter and assembly box for 2000 installations with relay output, and where there is an inter phone installation
- Can be used as bus connection and power supply

460088 CVT5

CVT6 Sabotage/relay/AC-DC/jumper/16 connectors

- Voltage: 12/24 V AC to 12 V DC
- Relay output C-NC-NO
- 16 connectors
- Jumper for reset the reader
- HxLxW: 88.5x65x31 mm
- Suitable in connection with an interphone installation with different voltages
- Can be used for stand alone systems
- Can be used as power supply for Conlan readers

460090 CVT6

CVT6,2 Relays/AC-DC/jumper/ 20 connectors

- Voltage 12/24 V DC to 12 V DC
- 2 relay outputs (C-NC-NO)
- One relay can be set as RPT-TI (Art. No.: 460154)
- Programme by DIP
- HxLxW: 88.5x65x31 mm
- Suitable for interphone installations with different voltages
- Suitable for CT1000 installations
- Can be used as power supply for all Conlan readers

460099 CVT6.2

Rectifier max. 1 A, 5-30 VAC / 7- 40 VDC
Rectifier with relay 7-12 VAC, 10-17 VDC
Converter with relay 4-24 VAC, 12V, relay

- AC > DC with ripple
- Relay 30 V / 1 A
- Suitable as rectifier and for relay output
- Suitable for strikes for door modules
- The converter can be used as power supply with relay

460220 RTF rectifier
460221 RTF rectifier with relay
460222 RTF converter with relay

Door strike standard 12VDC/255 mA
Door strike with status signal

- Both delivered with long plate

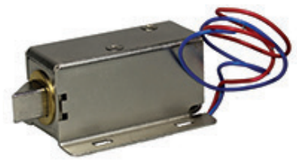

460052 Door strike 11211
460054 Door strike 211211

Lock 12 VDC/400mA
Lock 12 VDC/400mA and status signal
Lock 12 VDC/400mA, status signal and springs for drawer/cabinet release

- Voltage: 12 V DC / 400 mA
- HxLxW: 55x55x25 mm
- Used for locking cabinets, drawers, doors etc.

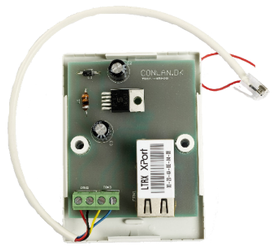

460069 Lock SZE
460068 Lock SZES
460067 Lock SZESP

Mini electric bolt

- Reversible bolt
- For lockers, closets, drawers etc.

460057 Electric bolt

LAN box for solutions 1200/2000/3000

- Remote connection on bus for all Conlan systems
- Defines IP address/COM port for remote programming via Conlan software
- Suitable for 1200/2000/3000 systems, for WAN/LAN connection

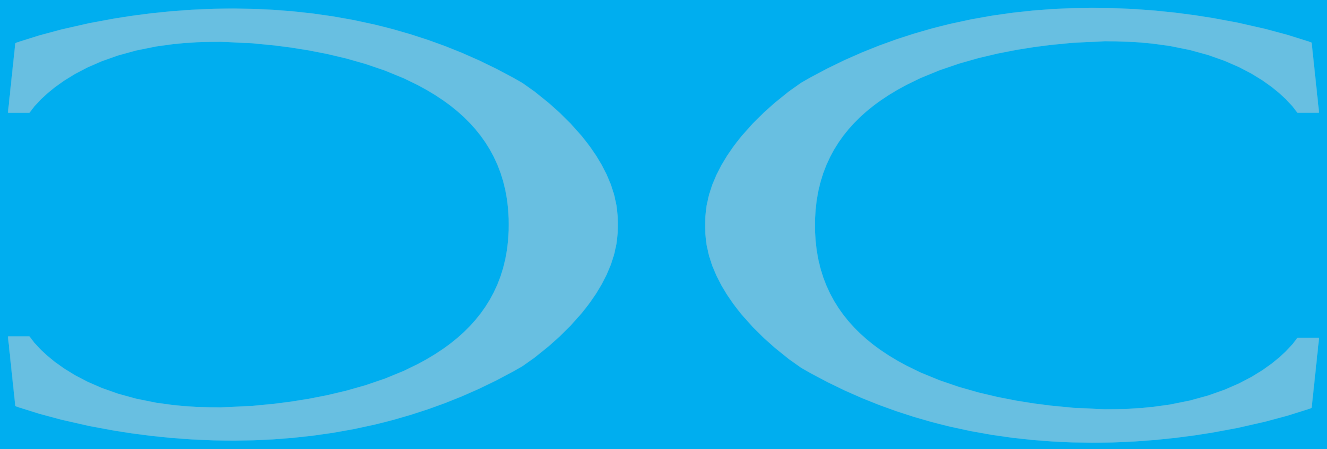

460018 LAN box

USB to 232 converter

460304 USB Charger
