I submit a draft reply for the Prime Minister's signature to a letter from the Chairman of the Keep Britain Out Campaign, complaining that Community legislation is not available to the public.

2. In view of Mr Frere-Smith's notorious anti-Market activities, it does not seem incumbent upon us to tell him the full story of the adaptation of secondary legislation to British requirements nor of the preparation of authentic English texts of Community legislation. The draft is therefore the least we can say in rebuttal of his complaint.

3. It has been cleared with the Librarian at the DTI.
