

Our adventure begins the moment we pick you up at your hotel. We will enjoy a comfortable, scenic 90-minute drive to our starting point in Amecameca, State of Mexico. Along the way, you can relax, take in the views of the volcanoes, and recharge with the drinks and snacks we've prepared for you.

Upon arriving at the parking area in Amecameca, we'll gear up to ensure a safe and action-ready ride. From the very first pedal stroke, you'll feel the contrast of the crisp mountain air and the dense alpine forest.

The route involves 3 to 4 hours of intense riding (depending on the group's pace), covering a circuit of approximately 40 km featuring long climbs and descents with great flow. We'll traverse unforgettable natural landscapes—surrounded by local lore, crystal-clear rivers, and waterfalls—while navigating natural dips, rooty sections, and rocky terrain where you can put your technical bike-handling skills to the test.

You'll be accompanied throughout by a trained guide, with on-trail mechanical assistance and first aid support available, allowing you to focus entirely on enjoying the ride. Once the tour concludes, we'll take you back to your hotel, leaving you with the satisfaction of having conquered one of the most iconic MTB spots in the Valley of Mexico.
