

## HAMPSHIRE DISABILITY CRICKET 2018

Hampshire Cricket Board is at the leading edge of disability cricket, fielding representative teams in national hard ball and soft ball competitions. Year by year our programme has grown and now another brand new structure offers greater opportunities of cricket to players of any age with physical disabilities and learning difficulties.

You don't need to be a great cricketer to be involved. We are looking for capable sports players who are eager to learn. If you'd like to play in representative cricket or would just like find out more, then please contact me by email at [rick.kellaway@virgin.net](mailto:rick.kellaway@virgin.net).

The new programme will see many of our current young players migrating from soft ball to hard ball cricket, so there will be plenty of opportunities for local cricketers and those new to the game.

- We will field two hard ball teams and one soft ball.
- Four winter training camps for all disability players will run in the North, Centre, South West and South East of the county.
- The districts will play matches against one another during the summer months.
- These district activities will lead to players' selection for truly representative County teams in games against other nearby counties participating in the National Cricket competitions. Matches will take place on Sunday afternoons between May and July.

Please do not hesitate to make contact with me whether it's to enquire about chances to play or for any clarification or further information.

I look forward to hearing from you.
