Centred on you

Connect, grow and collaborate
at the centre of all the city's action.

Centre City has undergone a complete transformation. It now features a brand new reception, a ground floor atrium with breakout areas, spaces for flexible working and informal meetings, and a fantastic weights and fitness studio.

Taking inspiration from some of Bruntwood SciTech's multi-award winning national schemes, the refurbishment has created truly inspirational space in the absolute beating heart of the city, offering you the chance to occupy innovative space in an iconic part of the city's skyline.

Centre City is part of the Bruntwood SciTech community – over 1,450 innovation-led businesses connected through shared spaces, ideas, and opportunities.

With its central location, friendly team, and vibrant community, it’s easy to see why our customers speak so highly of life here.

-  Communal space for you and your guests
-  Bookable meeting rooms
-  Coffee shop
-  Communal business lounge

“It’s great that you take tenants out for lunches and have a regular quiz night and tours of areas like China Town. I imagine this is great for people working in the building who are new to the City or looking to make new connections.”

“The location - super convenient for the train station and the whole of the city centre - and also the great coffee at the shop downstairs!”

“Good location in the city centre with good parking facilities. Reception and staff working in the building are great.

A culture of sustainability

Recognising the urgency of the climate crisis, and driven to create change from within the commercial property sector, we're committed to developing a sustainable and fair future for our communities by reinventing with the planet in mind in four key areas:

Investing in renewable energy -

all common areas, serviced offices and our own offices are using grid-supplied electricity generated from renewable sources.

Upgrading existing buildings -

for instance, by changing gas-fuelled boilers to air source heat pumps, which release less carbon emissions.

Creating new, net zero buildings

- our new buildings are net zero in construction and operation (in common areas), and don't use fossil fuels to provide heating and hot water.

Recommending sustainable interior design options -

from carpets to lighting, our team can suggest environmentally friendly design choices that match your budget.

To power more of our spaces with renewable energy, we've purchased an industry-first 42.4% stake in Kirk Hill wind farm, based in Ayrshire, Scotland.

Electricity created by the wind farm will be allocated to our offices, serviced spaces, and common areas*, a significant milestone on our path to net zero.
